vizio manuals: **Murder Made in Italy** Ellen Nerenberg, 2021-12-22 A study of three high-profile Italian murder cases, how they were covered by the media, and what it all says about Italian culture. Looking at media coverage of three very prominent murder cases, *Murder Made in Italy* explores the cultural issues raised by the murders and how they reflect developments in Italian civil society over the past twenty years. Providing detailed descriptions of each murder, investigation, and court case, Ellen Nerenberg addresses the perception of lawlessness in Italy, the country's geography of crime, and the generalized fear for public safety among the Italian population. Nerenberg examines the fictional and nonfictional representations of these crimes through the lenses of moral panic, media spectacle, true crime writing, and the abject body. The worldwide publicity given the recent case of Amanda Knox, the American student tried for murder in a Perugia court, once more drew attention to crime and punishment in Italy and is the subject of the epilogue. A fantastic array of literary, cinematic, and oral narratives. —Stefania Lucamante, Catholic University of America Original, engaging, and thought-provoking . . . quite unlike any other existing book in Italian cultural and media studies. —Ruth Glynn, University of Bristol

vizio manuals: The Formation of a National Audience in Italy, 1750–1890 Gabriella Romani, Jennifer Burns, 2017-06-06 The late eighteenth and the nineteenth centuries witness significant advancement in the production and, crucially, the consumption of culture in Italy. During the long process towards and beyond Italy becoming a nation-state in 1861, new modes of writing and performing – the novel, the self-help manual, theatrical improvisation – develop in response to new practices and technologies of production and distribution. Key to the emergence of an inclusive national audience in Italy is, however, the audience itself. A wide and varied body of consumers of culture, animated by the notion of an Italian national cultural identity, create in this period an increasingly complex demand for different cultural products. This body is energized by the wider access to education and to the Italian language brought about by educational reforms, by growing urbanization, by enhanced social mobility, and by transcultural connections across European borders. This book investigates this process, analyzing the ways in which authors, composers, publishers, performers, journalists, and editors engage with the anxieties and aspirations of their

diverse audiences. Fourteen essays by specialists in the field, exploring individual contexts and cases, demonstrate how interests related to gender, social class, cultural background and practices of reading and spectatorship, exert determining influence upon the production of culture in this period. They describe how women, men, and children from across the social and regional strata of the emerging nation contribute incrementally but actively to the idea and the growing reality of an Italian national cultural life. They show that from newspapers to salon performances, from letters to treatises in social science, from popular novels to literary criticism, from philosophical discussions to opera theaters, there is evidence in Italy in this period of unprecedented participation, crossing academic and popular cultures, in the formation of a national audience in Italy. This cultural transformation later produces the mass culture in Italy which underpins the major movements of the twentieth century and which undergoes new challenges and reformulations in the Italy we know today.

vizio manuals: Jacopo Tintoretto: Identity, Practice, Meaning Marie-Louise Lillywhite, Tom Nichols, Giorgio Tagliaferro, Autori Vari, 2022-04-04T17:35:00+02:00 Over the past twenty years or so it has finally been understood that Jacopo Tintoretto (1518/19-1594) is an old master of the very highest calibre, whose sharp visual intelligence and brilliant oil technique provides a match for any painter of any time. Based on papers given at a conference held at Keble College, Oxford, to mark the quincentenary of Tintoretto's birth, this volume comprises ten new essays written by an international range of scholars that open many fresh perspectives on this remarkable Venetian painter. Reflecting current 'hot spots' in Tintoretto studies, and suggesting fruitful avenues for future research, chapters explore aspects of the artist's professional and social identity; his graphic oeuvre and workshop practice; his secular and sacred works in their cultural context; and the emergent artistic personality of his painter-son Domenico. Building upon the opening-up of the Tintoretto phenomenon to less fixed or partial viewpoints in recent years, this volume reveals the great master's painting practice as excitingly experimental, dynamic, open-ended, and original.

vizio manuals: Comandant Edoardo De Angelis, Sandro Veronesi, 2024-06-04 «Un testimoni impressionant de la necessitat de rescatar del mar persones en dificultats.» Roberto Saviano, Corriere della Sera 1940. Itàlia està en guerra. Salvatore Todaro comanda el submarí Cappellini, navegant per les aigües de l'Atlàntic. Un vaixell enemic és a la vista. El comandant fa el que ha de fer: l'enfonsa. Aleshores, desobeint ordres superiors però respectant la llei del mar, en rescata els supervivents i els salva la vida. Aquesta és la història del que va passar a bord del submergible, un espai atapeït, ple d'esperança i solidaritat, de baralles i d'àpats reconfortants. Comandant és també un crit atemporal d'indignació contra la barbàrie de tot conflicte bèl·lic, i la reivindicació de qui està

disposat a fer prevaldre, malgrat tot, els valors humanitaris. Arnaud de La Grange, Le Figaro — «Amb una escriptura tan impactant com un torpede, Sandro Veronesi i Edoardo De Angelis donen vida a una lliçó d'humanitat i valentia en alta mar, en plena Segona Guerra Mundial.» Zita Dazzi, La Repubblica — «És un llibre que traspua dolor i tendresa a cada línia, on és fàcil de llegir el subtext de l'episodi històric, és a dir, la història dramàticament actual dels rescats al mar, posant al lloc dels mariners d'en Todaro els voluntaris de les ONG implicades al Mediterrani per rescatar de les ones la vida dels exèrcits desarmats dels últims del món.»
