smart alec workbooks: Smart Alec Alex T. D. Said, 2019-10 Alexandria P. Knowitall, also known as Smart Alec Alex, is a 6th grader at T.K Spittle Middle School. Alex thinks she is the smartest kid in the school, but in reality, she is a smart aleck. With her snappy comebacks and her I'm always right attitude, Alex definitely does not know it all. In Smart Alec Alex Changing schools and Classroom Rules, Alex is faced with doing things like the Middle School kids. Changing classes--Boy this is new, I'm not sure we're going to like this. I wonder what my BFF's will think. Allow me to introduce you to my BFF's: First, we have Candice Smug. Candice worries about her looks. I hope I can check my hair in between classes. Is there a mirror around? says Candice. Calvin Clueless is a nervous little guy who repeats everything twice. Don't you Calvin? It's true, it's true. I do, I do, says Calvin. He's pretty smart too. And then there's my flower child, Sissy Sillington, who is silly and laughs at everything, LOL, stop it....I don't laugh at everything, giggles Sissy. As Alex rotates from class to class with her three favorite buddies, they find themselves amazingly amused by the whacky personalities of each teacher. The Art teacher is a whimsical lady, who is all over the place, dipping and dodging around the class like a leaf blowing in the wind. The English teacher is confusing, she speaks French/English with a country accent and wears a beret with country clothing and the Math teacher is so short, he has to carry around a stool to stand on just to teach the class. This is the first chapter book of the Smart Alec Alex series. Join Alex on a hilarious ride as you follow her day-to-day capers as a smart-aleck 6th Grader, AKA Alexandria P. Knowitall.

smart alec workbooks: You Had to Be There Robert Collins, 2012-11-13 They gained their maturity in an age of monumental and unprecedented change – from horse-and-buggy, Model TFord, and crank telephone, to moonwalks, space shuttles, and the Internet. They are better educated, more affluent, more vigorous, and longer-lived than any generation before them, yet obstinately cling to a forthright simplicity no generation is likely to regain. They are proudly "old fashioned" in their outlook, hardworking, and frugal in their ways. They are the last enthusiastic patriots, the last to accept authority with respect. They are the last generation to have reached adulthood without television, credit cards, computers, or the Pill. Their younger critics may call them "old fogies"; Robert Collins calls them Generation M, for mature. In You Had to Be There, Robert Collins gives us

the entire history of this extraordinary and hugely influential generation. Through this fascinating story he weaves the voices of Canadians from across the country, who speak with humour, regret, and passion about the hardships and triumphs of their lives and about the widening gap between themselves and the rest of Canada. Generation gaps are as old as humankind, but rarely has there been as much misunderstanding and veiled animosity as there is between young and old today. Robert Collins accounts for the prejudices, pokes fun at the rivalries, and, with humour and sympathy, invites younger Canadians to re-examine their parents' or grandparents' lives and consider, maybe for the first time, the true proportion of their legacy.

smart alec workbooks: Smart Alec Alex, Braces AND Glasses, Imagine That! T. D. Said, 2020-03-03 In the Smart Alec Alex Series (Book #1), Changing Schools and Classroom Rules, Alex's mom suggests she MAY need braces, due to her overbite. What is an overbite? I don't over bite my food, I chew like smart kids, Alex says. Alex is not thrilled about it, but she tries to keep a positive attitude to save face in front of her pals, who encourage and assure her she will be fine. No sweat, dudette, you're gonna be okie dokie. If anyone teases you, we'll tickle them silly, says a giggling Sissy. Don't worry, worry Alex, your teeth will be, will be straight and and pretty, you'll see, says Calvin. Alex girl, I have your back, and when it's all said and done, you are going to look fabulous?..like me! says Candice. Now Alex's vision seems weird and a little off. Does she need glasses too? But Smart Alec Alex just rolls with the antics and looks forward to the outcome. Alex is curious and so are we. So what will happen next?
