best italian workbooks: A Bibliographical Catalogue of Italian Books Printed in England 1558-1603 Soko Tomita, 2016-12-05 Through entries on 291 Italian books (451 editions) published in England during the reign of Queen Elizabeth I, covering the years 1558-1603, this catalogue represents a summary of current research and knowledge of diffusion of Italian culture on English literature in this period. It also provides a foundation for new work on Anglo-Italian relations in Elizabethan England. Mary Augusta Scott's 1916 Elizabethan Translations from the Italian forms the basis for the catalogue; Soko Tomita adds 59 new books and eliminates 23 of Scott's original entries. The information here is presented in a user-friendly and uncluttered manner, guided by Philip Gaskell's principles of bibliographical description; the volume includes bibliographical descriptions, tables, graphs, images, and two indices (general and title). In an attempt to restore each book to its original status, each entry is concerned not only with the physical book, but with the human elements guiding it through production: the relationship with the author, editor, translator, publisher, book-seller, and patron are all recounted as important players in the exploration of cultural significance. Renaissance Anglo-Italian relations were marked by both patriotism and xenophobia; this catalogue provides reliable and comprehensive information about books and publication as well as concrete evidence of what elements of Italian culture the English responded to and how Italian culture was acclimatized into Elizabethan England.

best italian workbooks: A Bibliographical Catalogue of Italian Books Printed in England 1603-1642 Soko Tomita, Masahiko Tomita, 2016-12-05 A sequel to Tomita's A Bibliographical

Catalogue of Italian Books Printed in England 1558-1603, this volume provides the data for the succeeding 40 years (during the reign of King James I and Charles I) and contributes to the study of Anglo-Italian relations in literature through entries on 187 Italian books (335 editions) printed in England. The Catalogue starts with the books published immediately after the death of Queen Elizabeth I on 24 March 1603, and ends in 1642 with the closing of English theatres. It also contains 45 Elizabethan books (75 editions), which did not feature in the previous volume. Formatted along the lines of Mary Augusta Scott's Elizabethan Translations from the Italian (1916), and adopting Philip Gaskell's scientific method of bibliographical description, this volume provides reliable and comprehensive information about books and their publication, viewed in a general perspective of Anglo-Italian transactions in Jacobean and part of Caroline England.

best italian workbooks: The Best Reading: Hints on the Selection of Books Frederic Beecher Perkins, 1877

best italian workbooks: The Englishman's Italian Books, 1550-1700 John L. Lievsay, 2016-11-11 In this learned and delightful book, John L. Lievsay shows how energetic English printers of the sixteenth and seventeenth centuries helped to bring the language and literature of Italy into England. His description of how these men, who were not usually troubled by modesty and sometimes not by honesty, capitalized on and helped to create the Englishman's appetite for things Italian will be welcomed by scholars; his analysis of the contents of libraries and catalogues and his commentary on the books themselves will be relished by those who enjoy the scholarship and the gossip behind the collecting and printing of books. In his first essay, English Printers, Italian Texts, the author identifies the printers and the variety of Italian authors. Torriano's proverbs and Florio's language manuals met a receptive audience. John Wolfe published Pietro Aretino under false imprint, inventing fictional places of publication, and his printings of Machiavelli, suppressed in Italy and not generally available in translation, were highly successful. John Bill, King's Printer, even published an Italian translation of Bacon's Essay. Lievsay then turns to the Italian titles found in library collections of the time, among them Thomas James's catalogs of the Bodleian Library, the bookseller Robert Martin's lists, and the libraries of eminent Englishmen, including those of John Locke and Sir Edward Coke. Lord Herbert's library held a book by Partenio Etiro, an anagram for Aretino. The work of Tomaso Garzoni has been neglected, but Lievsay revives it in the third essay with descriptions of Garzoni's immensely popular Piazza and Theatro; and quotations from his *Mirabile cornutopia*—a mock letter of consolation to cuckolds—are evidence of the high spirit of this learned and bizarre man. The essays are based on lectures given at the University of Pennsylvania in the spring of 1969 for the A. S. W. Rosenbach Fellowship in Bibliography.
