abeka textbooks: Hijacking History Kathleen Wellman, 2021-08-18 The teaching of history has long been the subject of partisan warfare. Religion often plays a prominent role in these debates, as secular progressives and conservative Christians disagree over which historical figures are worthy of study, how (or whether) certain events should be portrayed, and ultimately how tax dollars should be spent. But what about students who are educated outside the public schools, either in religious schools or at home? How are they learning history, and what effect does that have on our democracy? *Hijacking History* analyzes the high school world history textbooks produced by the three most influential publishers of Christian educational materials. In these books, the historian, informed by his faith, tells the allegedly unbiased story of God's actions as interpreted through the Bible. History becomes a weapon to judge and condemn civilizations that do not accept the true God or adopt "biblical" positions. In their treatment of the modern world, these texts identify ungodly ideas to be vanquished-evolution, humanism, biblical modernism, socialism, and climate science among them. The judgments found in these textbooks, Kathleen Wellman shows, are rooted in the history of American evangelicals and fundamentalists and the battles they fought against the tide of secularism. In assuming that God sanctions fundamentalist positions on social, political, and economic issues, students are led to believe that the ultimate mission of America is to succeed as a nation that advances evangelical Christianity and capitalism throughout the world. The Christianity presented in these textbooks is proselytizing, intolerant of other religions and non-evangelical Christians, and unquestionably anchored to the political right. As *Hijacking History* argues, the ideas these textbooks promote have significant implications for contemporary debates about religion, politics, and education, and pose a direct challenge to the values of a pluralistic democracy.

abeka textbooks: Creationism USA Adam Laats, 2020-10-05 *Creationism USA* reveals how common misconceptions about creationism have led Americans into a century of unnecessary culture war histrionics about evolution education and creationism. Adam Laats argues that Americans do not have deep, fundamental disagreements about evolution, but that they do have significant disagreements about creationism. *Creationism USA* both explains the current state of America's battles over creationism and offers a nuanced yet straight-forward prescription to solve them.

abeka textbooks: *The Exvangelicals* Sarah McCammon, 2024-03-19 INSTANT NEW YORK TIMES BESTSELLER NATIONAL BESTSELLER An intimate window into the world of American evangelicalism. Fellow exvangelicals will find McCammon's story both startlingly familiar and immensely clarifying, while those looking in from the outside can find no better introduction to the subculture that has shaped the hopes and fears of millions of Americans. —Kristin Kobes Du Mez, New York Times bestselling author of *Jesus and John Wayne* The first definitive book that names the growing social movement of people leaving the church: the exvangelicals. Growing up in a deeply evangelical family in the Midwest in the '80s and '90s, Sarah McCammon was strictly taught to fear God, obey him, and not question the faith. Persistently worried that her gay grandfather would go to hell unless she could reach him, or that her Muslim friend would need to be converted, and that she, too, would go to hell if she did not believe fervently enough, McCammon was a rule-follower and—most of the time—a true believer. But through it all, she was increasingly plagued by fears and deep questions as the belief system she'd been carefully taught clashed with her expanding understanding of the outside world. After spending her early adult life striving to make sense of an unraveling worldview, by her 30s, she found herself face-to-face with it once again as she covered the Trump campaign for NPR, where she witnessed first-hand the power and influence that evangelical Christian beliefs held on the political right. Sarah also came to discover that she was not alone: she is among a rising generation of the children of evangelicalism who are growing up and fleeing the fold, who are thinking for themselves and deconstructing what feel like the “alternative facts” of their childhood. Rigorously reported and deeply personal, *The Exvangelicals* is the story of the people who make up this generational tipping point, including Sarah herself. Part memoir, part investigative journalism, this is the first definitive book that names and describes the post-evangelical movement: identifying its origins, telling the stories of its members, and examining its vast cultural, social, and political impact.

abeka textbooks: *Exvangelical and Beyond* Blake Chastain, 2024-09-24 A pioneer of the “exvangelical” movement examines how toxic right-wing beliefs took over American Christianity—and why people are leaving the church and speaking out against it With the rise of Trumpism, the American evangelical movement has more political influence than ever—yet at the same time, people are leaving Christianity in record numbers. Why are so many people walking away from the right-wing religion they were raised in, and what are they doing to overcome the past? Writer and podcaster Blake Chastain is uniquely positioned to understand this phenomenon. Raised evangelical, he went to a Christian college intending to become a pastor—until he found himself unable to reconcile his faith with the prejudice and even abuse he saw being done in God's name. He created the popular hashtag #exvangelical and the hit podcast of the same name, and soon became part of a growing movement of people walking away from toxic religion and using the unique tools of the internet to speak out, find healing, and build new communities. In *Exvangelical and Beyond*, Chastain delves into evangelicalism's deep roots in American politics and society, and explains why

and how so many Christians—and ex-Christians—are forging a new path online. Blending history, personal narrative, and incisive analysis, this is a must-read for anyone who has left the church, is deconstructing their own faith, or simply wants to understand religious culture in America.

abeka textbooks: The Power Worshippers Katherine Stewart, 2020-03-03 The inspiration for the documentary God & Country For readers of Democracy in Chains and Dark Money, a revelatory investigation of the Religious Right's rise to political power. For too long the Religious Right has masqueraded as a social movement preoccupied with a number of cultural issues, such as abortion and same-sex marriage. In her deeply reported investigation, Katherine Stewart reveals a disturbing truth: this is a political movement that seeks to gain power and to impose its vision on all of society. America's religious nationalists aren't just fighting a culture war, they are waging a political war on the norms and institutions of American democracy. Stewart pulls back the curtain on the inner workings and leading personalities of a movement that has turned religion into a tool for domination. She exposes a dense network of think tanks, advocacy groups, and pastoral organizations embedded in a rapidly expanding community of international alliances and united not by any central command but by a shared, anti-democratic vision and a common will to power. She follows the money that fuels this movement, tracing much of it to a cadre of super-wealthy, ultraconservative donors and family foundations. She shows that today's Christian nationalism is the fruit of a longstanding antidemocratic, reactionary strain of American thought that draws on some of the most troubling episodes in America's past. It forms common cause with a globe-spanning movement that seeks to destroy liberal democracy and replace it with nationalist, theocratic and autocratic forms of government around the world. Religious nationalism is far more organized and better funded than most people realize. It seeks to control all aspects of government and society. Its successes have been stunning, and its influence now extends to every aspect of American life, from the White House to state capitols, from our schools to our hospitals. The Power Worshippers is a brilliantly reported book of warning and a wake-up call. Stewart's probing examination demands that Christian nationalism be taken seriously as a significant threat to the American republic and our democratic freedoms.

abeka textbooks: Becoming Homeschoolers Monica Swanson, 2024-05-07 Monica Swanson

helps you navigate your real-world concerns about school, culture, and what it takes to create an amazing homeschool experience that you and your kids will never regret! If you've ever wondered whether you have what it takes to homeschool your children, look no further. Parenting author, podcaster, and homeschool mom Monica Swanson is here to tell you: you can do it. In fact, it can be the most fun, family-unifying, character-building, life-equipping experience you and your children will ever have. *Becoming Homeschoolers* tackles your legitimate doubts and fears about homeschooling, as well as the questions you want answered before you commit--questions like where to start and how to choose a curriculum, build social skills, teach what you're not good at, and prepare for college. With humor and encouragement, Monica weaves her own story of homeschooling her four boys with step-by-step, practical advice on how to: Assess whether home education is right for you and your children Establish a foundation of faith in your everyday homeschool routine Find socialization opportunities such as sports and extracurricular activities Care for yourself and your marriage even as you spend more time each day with your kids Tackle the practical side of homeschooling, including standardized tests, transcripts, college readiness, and navigating education requirements It's time to trade fear for empowerment and insecurity for confidence as you live out your own story of becoming homeschoolers.

abeka textbooks: *Against* Tad DeLay, 2019-08-06 What does the white evangelical want? In our moment of crisis and rage, this question is everywhere. Scholars ask from where its desires emerged, pundits divine its political future, and the public asks how we lapsed into social chaos. For their part, white evangelicals feel misunderstood while failing to see the direction of their ambitions. We must interrogate its aims not only through its past or current trends but also through the various fantasies by which it rejects and enlivens reality. *Against* traces five zones of opposition: future, knowledge, sexuality, reality, and society. If climate change is the greatest threat civilization has ever faced, then a faith aiding collapse must face analysis. If it swims in assured forgiveness, it feels no shame for its sins against humanity. If it wants a king, it threatens democracy. If it veils xenophobia, it shall be ever more cruel. In a critical and accessible history of odd ideas, DeLay chronicles the past and sketches its troubling future. It might die, but what's certain is that a faith built on nostalgia and supremacy won't moderate. We live in dangerous times, so let us consider its justifications, turmoil, appetite, and catastrophe.

abeka textbooks: *Invisible Boy* Harrison Mooney, 2022-09-20 FINALIST - Governor General's Literary Award for Nonfiction WINNER - 2023 Rakuten Kobo Emerging Writers Prizes for Nonfiction FINALIST - Hurston/Wright Legacy Award for Nonfiction An unforgettable coming-of-age memoir about a Black boy adopted into a white, Christian fundamentalist family Perfect for fans of *Educated*, *Punch Me Up to the Gods*, and *Surviving the White Gaze* "An affecting portrait of life inside the twin prisons of racism and unbending orthodoxy." --Kirkus Reviews A powerful, experiential journey from white cult to Black consciousness: Harrison Mooney's riveting story of self-discovery lifts the curtain on the trauma of transracial adoption and the internalized antiblackness at the heart of the white evangelical Christian movement. Inspired by Ralph Ellison's *Invisible Man* the same way Ta-Nehisi Coates's *Between the World and Me* was inspired by James Baldwin, Harrison Mooney's debut memoir will captivate readers with his powerful gift for storytelling, his keen eye for insight and observation, and his wry sense of humor. As an adopted and homeschooled Black boy with ADHD at white fundamentalist Christian churches and tent revivals, Mooney was raised amid a swirl of conflicting and confusing messages and beliefs. Within that radical and racist right-wing bubble along the U.S. border in Canada's Bible Belt, Harrison was desperate to belong and to be visible to those around him. But before ultimately finding his own path, Harrison must first come to understand that the forces at work in his life were not supernatural, but the same trauma and systemic violence that has terrorized Black families for generations. Reconnecting with his birth mother--and understanding her journey--leads Harrison to a new connection with himself: the eyes looking down were my true mother's eyes, and the face was my true mother's face, and for the first time in my life, I saw that I was beautiful.

abeka textbooks: *School from Scratch* Doug Crowder, 2022-11-18 *School from Scratch* could

be the resource you need to open the doors of your mind to awesome possibilities. Drawing on forty years of starting schools and a host of other educational ministries worldwide, Doug Crowder shares stories and insights that will challenge you to step out and boldly follow God's leadership. Writing in a straightforward fashion, he walks you through how to confront a lack of resources, how to identify facilities, how to navigate legal issues, and more. Get answers to questions such as: · Is it really possible to share the gospel through education? · How did the COVID-19 pandemic create opportunities for school startups? · Which school models are most likely to succeed? The author emphasizes that there are God-fearing, believing people, families, business owners, and even entire church congregations without a well-developed biblical worldview. Through education, we have the opportunity and privilege to enhance the lives of others—both young and old.

abeka textbooks: Summary of Sarah McCammon's The Exvangelicals Milkyway Media, 2024-05-19 Get the Summary of Sarah McCammon's The Exvangelicals in 20 minutes. Please note: This is a summary & not the original book. The Exvangelicals by Sarah McCammon delves into the author's personal journey within and ultimately away from the evangelical Christian community. Raised in a devout family, McCammon's life was deeply influenced by the evangelical emphasis on salvation, biblical literalism, and public demonstration of faith. She recounts the pressures of evangelizing and the fear of damnation that permeated her childhood, as well as the insular world of her church and Christian school...

abeka textbooks: Three Doctors Roxanne Dawn Pawluk-Frost, 2015-03-24 Three Doctors teaches parents how to raise successful, godly children. Godly children need to be raised to become useful and contributing members of society. Parents can learn how they can have a vital role in seeing their children become all that God wants them to be as they teach and mold the children God has given into their care.

abeka textbooks: The Education Wars Jennifer C. Berkshire, Jack Schneider, 2024-07-02 A perfectly timed book for the educational resistance—those of us who believe in public schools Culture wars have engulfed our schools. Extremist groups are seeking to ban books, limit what educators can teach, and threaten the very foundations of public education. What's behind these efforts? Why are our schools suddenly so vulnerable? And how can the millions of Americans who love their public schools fight back? In this concise, hard-hitting guide, journalist Jennifer C. Berkshire and education scholar Jack Schneider answer these questions and chart a way forward. The Education Wars explains the sudden obsession with race and gender in schools, as well as the ascendancy of book-banning efforts. It offers a clear analysis of school vouchers and the impact they'll have on school finances. It deciphers the movement for "parents' rights," explaining the rights that students and taxpayers also have. And it reveals how the ostensible pursuit of "religious freedom" opens the door to discrimination against vulnerable children. Berkshire and Schneider outline the core issues driving the education wars, offering essential information about issues, actors, and potential outcomes. In so doing, they lay out what is at stake for parents, teachers, and students and provide a road map for ensuring that public education survives this present assault. A book that will enrage and enlighten the millions of citizens who believe in their public schools, here is a long-overdue handbook and guide to action.

abeka textbooks: *Contemporary Issues in Equity, Democracy, and Public Education* Felicity Crawford, Fadie T. Coleman, Elsa Wiehe, 2024-12-27 *Contemporary Issues in Equity, Democracy, and Public Education* explores how inequity manifests in public education and social institutions, and how this inequity impacts the health and wellbeing of citizens, including marginalized people. Demonstrating how inequity thereby threatens democracy, this book also poses suggestions for improving equity in U.S. education. Taking a multidisciplinary approach to historical and contemporary sources of inequity that operate in social institutions and public policy, this carefully curated volume shows how disparities in education levels, income, housing, and health have consequences that reverberate through individuals' lives, and thereby undermine a democratic way of life. Contributions from a wide variety of experts offer approaches to solving these problems, as well as curricular innovations for identifying and alleviating systemic inequities. Part 1 begins by examining the origins and persistence of systemic inequity in U.S. public education, while Part 2 highlights the physiological, psychological, and social impacts of systemic bias, and how these factors interrupt democratic engagement over time. Moving on to examine the curriculum in more detail, Part 3 explores how we can promote equity across the curriculum, and Part 4 closely considers how we can expand educational opportunities for marginalized groups within STEM education. The book will make invaluable reading for graduate students and researchers in Education - particularly Social Justice Education, Multicultural Education, Educational Policy and Politics, STEM Education, and Social Studies Education - as well as policymakers, in-service teachers, administrators, and activists.
