Understanding Kindle Unlimited

Kindle Unlimited is a subscription service offered by Amazon that allows users to borrow and read an extensive collection of eBooks, magazines, and audiobooks. For a monthly fee, subscribers can access thousands of titles without purchasing them individually. This service is particularly appealing to avid readers who enjoy exploring a variety of genres and authors without the burden of additional costs. The Kindle Unlimited library is constantly updated, allowing users to discover new works regularly.

The subscription model of Kindle Unlimited makes it an attractive option for budget-conscious readers, especially students who may be looking for affordable reading material. However, understanding the parameters of what is available through this service is crucial for users who specifically want textbooks for academic study.

Availability of Textbooks on Kindle Unlimited

The question of whether textbooks are available on Kindle Unlimited is multifaceted. While Kindle Unlimited offers a broad selection of books, it does not explicitly categorize its offerings as "textbooks." Instead, users may find some educational materials, study guides, and reference books that can complement their learning.

It is important to note that traditional academic textbooks, especially those used in college courses,

are often not included in Kindle Unlimited. The primary reason for this exclusion is that many publishers prefer to sell textbooks directly or through educational institutions rather than through subscription services. Consequently, while you might find some supplementary materials related to specific subjects, the core textbooks required for courses are typically not available.

Types of Books Included in Kindle Unlimited

Kindle Unlimited boasts a diverse collection of titles spanning multiple genres. Users can access fiction, non-fiction, romance, science fiction, and even self-help books. However, the availability of textbooks is limited. Below are some categories of books you may find on Kindle Unlimited:

- **Fiction:** Novels across various genres including mystery, romance, and science fiction.
- **Non-Fiction:** Biographies, memoirs, and self-improvement books.
- **Children's Books:** A selection of picture books and early readers.
- **Magazines:** Access to popular magazines covering topics from fashion to technology.
- **Self-Help:** Guides and resources aimed at personal development.

While these categories are rich and varied, students looking for comprehensive academic resources may find the selection lacking when it comes to required textbooks for high school or college courses.

Alternatives to Kindle Unlimited for Textbooks

For students and educators seeking access to textbooks, there are several alternatives to consider that may provide a more extensive selection of academic materials. Here are some options:

- **Amazon Textbook Rental:** Amazon offers a textbook rental service where students can rent physical or digital copies of textbooks for a specified period.
- **Chegg:** Chegg provides textbook rentals, purchases, and a range of study tools, including solutions and tutoring services.
- **OpenStax:** OpenStax is a nonprofit organization that provides free, peer-reviewed, openly licensed textbooks available in multiple formats.
- **Library Services:** Many public and university libraries offer digital lending services for textbooks through platforms like OverDrive or Libby.
- **Google Books:** Google Books allows users to preview and sometimes access textbooks online, providing options for individual purchases or rentals.

These alternatives may better serve students' needs for academic resources, especially when specific textbooks are required for coursework.

Maximizing Your Kindle Unlimited Experience

Even though textbooks may not be heavily represented in Kindle Unlimited, there are still ways to maximize the value of your subscription. Here are some strategies:

- **Explore Supplementary Materials:** Look for books that complement your studies, such as study guides or instructional materials related to your courses.
- **Utilize Audiobooks:** Kindle Unlimited includes a selection of audiobooks, which can be a helpful resource for absorbing information in a different format.
- **Join Online Communities:** Engage with online forums and communities where other users share their recommendations for educational content within Kindle Unlimited.
- **Keep an Eye on New Additions:** Regularly check for updates, as the library is frequently refreshed with new titles that may include educational materials.

By employing these strategies, users can enhance their Kindle Unlimited experience and make the most of the available resources, even if traditional textbooks are not included.

are textbooks available on kindle unlimited: HOW TO HACK AMAZON JAVIER CLEMENTE ENGONGA AVOMO, A computer hacker is an expert in this case, in computer science, who uses his technical knowledge to achieve a goal or overcome an obstacle, within a computer system by non-standard means. Writing a book or two a day is not a very standard means and when it becomes three or two or three hundred titles you start to take it seriously, especially when you see the results, and the results are obvious when you see the curve growing ever upwards. It's only the beginning, but a few months can define a lifetime, as these last two years have been for humanity as a whole. We have all learned that we are very different at the same time as we are similar in the essential that we all want to be alive. Death or crisis brings out the best or the worst in us and the reality is that human beings are complex beings. I do not consider myself an expert in any branch of computing, I have not received any special training in anything to do with computers or computer security. My computer does not even have antivirus and is open to access by what for many is a big problem because they believe in their right to privacy, and do not think many times about the right of everyone, of the whole world, to a greater and total security. This book is not to encourage or motivate anyone to do anything illegal by misunderstanding the definition of hacking. In chess, checkmate is the move that consists of threatening the king so that he cannot defend himself and puts an end to the game. I do not know how to play table chess, because my mind is that of quantum chess. I didn't know it before, because I didn't know neither my true potential nor that of the world inside my old computer, that world which is a wonder. Thank you for reading these lines. are textbooks available on kindle unlimited: *THE ULTIMATE PLAN FOR THE REDEMPTION OF MANKIND* JAVIER CLEMENTE ENGONGA AVOMO, 2021-10-09 Humanity is an exceptional creation of God, of Creation. Human beings cannot destroy themselves without also destroying that part of their divinity that exists and participates in the action of bringing about the best possible future for this special world of existence. God's Plan is the destiny of humanity revealed in prophecies from the remotest antiquity of human societies and whose destiny, ever renewed, is the Ultimate Plan of Redemption of Mankind. God does not make mistakes, and humanity's greatest mistake has always been to question the infallibility of its own Creator, and by focusing on the errors of its own existence, man has ceased to see himself as he truly is, a supreme being when he chooses

to be so, and above all, when he remembers that God lives in him. All good ways lead to God, while evil ways lead us away from His light, and we know that every time we do wrong. That is the great truth. To do good is to act according to God's will, or rather, to walk carefully, looking carefully at our steps and not looking back. Javier Clemente Engonga, 10.08.2021

are textbooks available on kindle unlimited: A COUNTRY WITH A LOT OF POSSIBILITIES JAVIER CLEMENTE ENGONGA AVOMO, Few countries in the world have a real chance of being free, independent and prosperous as the Republic of Equatorial Guinea. But trying to reinvent the wheel so often calls into question not only the credibility but also the efficiency of trying to build castles on sand. Many regions have missed the opportunity to grow because of many bad decisions, behind which only corruption and ignorance prevailed. To fly without learning to walk is risky enough, but to build a nation without national objectives, without nationalism, patriotism and brotherhood, is to relive the past of subjugation to darkness. It is true, we are all Guineans, but what some people feel for their brothers is often questioned when they oppress with all their decisions, the well-being of a majority that no longer knows how to express itself, that apolitical majority that only asks and demands peace, well-being and prosperity, because it is more than its right. But to talk like this in this country is more than talking about politics, it is offensive to those who tolerate neither justice nor freedom, because to talk about peace is painful for those who destroy peace. are textbooks available on kindle unlimited: THE FIRST WAR AGAINST CHINA JAVIER CLEMENTE ENGONGA AVOMO, The traditions of warfare of different natures with which a part of humanity has become accustomed have made it easy for the first great biological war that has impacted the entire world and to a greater extent the countries with the largest populations to go unnoticed. Indeed, just like the First and Second World Wars, those two great European war conflicts for the control of global resources and territories in Asia and Africa mainly; that "magical and ultra-mutant" virus clearly created in some laboratory of the countries that now suffer the most from its consequences, is nothing but the third world war or the first global biological war, in which the one who has the most to lose, in terms of power, is China. Like the Cold War, the war against China is a ruthless and dark conflict, and it is not a war of "China against anyone" or, in some case, "China against China". Javier Clemente Engonga, 22.07.2021

are textbooks available on kindle unlimited: OFF THE CHARTS! HOW TO WRITE MORE THAN 100 BOOKS IN 90 DAYS JAVIER CLEMENTE ENGONGA AVOMO, I have always loved to write, but I never thought I would write more than a dozen books. Difficult times bring out the best in us, and that has meant the period of the Covid-19 pandemic for many people and in particular for me, during that global crisis I have recovered the best part of me, and I remembered how much I liked writing. I had never published my books, although I always wanted to, until it only took a few words in my ears to make up my mind and start writing again, " And why don't you publish your books on Amazon, it's free! ". That was enough to encourage me and I started some books but... it wasn't until March 29, 2021 and specifically arrived at June 27, 2021 that, during that period of retirement, I just started writing a little bit of everything, and I ended up writing more than a hundred titles, all available on Amazon. For those of you who do not know Africa, you must understand that in some African countries, the most ignorant people, that is, those people who have never read a single whole book in their lives, get up every morning and with the power of violence and the terror of weapons, they assault the freedoms and rights of people. They do not get up every morning to work and build a better place, but to destroy and steal what belongs to the people, and that is the problem of corruption. Then, when the corrupt pretend to fight corruption, the story becomes even more tenebrous, like a fantasy movie script, and that is why we, the more intelligent ones, prefer to write. Just as a good musician can create a wonderful melody or song from a single note, so it is with literature. In this way, I have been able to develop, or rather, to perfect my creative and literary capacity, being able to produce and publish, in only three months, more than a hundred books in several languages, mainly in Spanish, English, German, Portuguese, Italian, some in French and in traditional Chinese. I have enjoyed a lot along the way because I have learned to

know myself better. My literary technique is very simple, I write about whatever comes to my mind, in an organized way, with the phone, the computer and just free my mind. My books are mainly series of books on futuristic technology, science, religion and spirituality but mostly African history, and I write one or two books a day. It does not make much sense that the history of Africa is written by non-Africans, or the religion of Africa or the spirituality of Africa is written by Europeans and Americans; I am not saying it is wrong or that it is not up to everyone to write about what they like but, at least from now on, if you search for books about Africa or Equatorial Guinea on Amazon, a large percentage of the results will be part of my literary work and, in the case of Equatorial Guinea, 95% of the results about books on Amazon is, my literary work, and I have achieved that in just three months. My country, Equatorial Guinea, has the highest literacy level on the African continent, and yet it is a very little known country. Unfortunately the country is best known for corruption and abuses, but there is much more to the country than that. The corrupt are not very intelligent, for if they were corrupt they simply would not steal, but would create wealth, abundance and prosperity, and that is my great concern with politicians, the corrupt, and those who are both. That is why in my books I talk a lot about corruption, and I hope that the thieves learn something, instead of spending their lives fabricating stories, because neither the people nor the world are fools, only the corrupt are fools. Not everybody wants to be a politician, and not everybody likes corruption; but where corruption prevails, when you are not a thief, you are an enemy of thieves, because you cannot be friends, since you do not think alike: the corrupt thinks he has the right over everybody's property, and the honest thinks that is stupidity. The corrupt has all the money in the world and has never worked a day in his life, and the honest works every day to earn his bread and his living, so not everyone has the same mental capacity, but something very curious happens when mediocrity reigns. The danger of the mediocre is that they do not know or believe that different people and personalities also have different levels of intellectuality, and it is precisely that capacity that transforms the world and countries, from generation to generation and not steal and steal from generation to generation. The mediocre only think about the present and filling their accounts abroad, the farther away the better. But for those of us who see this continent called Africa suffer, we believe that the world already deserves something different, and a continent with countries that stand out for the capacity of their people and not for the power of thieves. That is why, perhaps, I can even consider myself a Revolutionary, because no one who accepts disorder as a path for the future of a continent that must be free and has to be free, deserves to be called African. Maybe that is why many of those who accumulate money from Africa to go far away have two or three or four passports. But some of us, we are only Africans, and we have no intention of going anywhere, and with the world we only share the pain of seeing Africa suffer for so long, because nobody wants that anymore, but only corrupt alone do not understand it. All intelligent people are enemies of corruption. I have always spoken and thought this way, and I have always expressed myself this way, in public and in private, before the public media whenever I could, and whoever knows me knows what I think of corruption and the feeling between me and the corrupt is mutual. I never write about anything that I cannot defend or say face to face, and that is called integrity, and that is why I am not a politician nor am I interested in politics, because it only serves for mediocrity, while the real problems are never solved, because the mediocre does not even know where to start. That is why today, to celebrate the satisfaction of seeing the first 1000 downloads in only 27 days of the already 281 books (including the various versions and electronic formats, soft and hard cover, as well as the various languages), and that is why I am writing these lines. I consider myself a very humble person, because humility is something that is carried inside the heart and is transmitted with contact to the outside Only by trying, knowing, or talking to a person you can really know how he/she is, but spying and falsifying, lying and inventing only shows your own ignorance and low level of mental capacity. I thank the almost two thousand people mainly from the United States, Germany, Mexico, Spain, Brazil, Italy, Japan, India, Canada, United Kingdom, France, Netherlands and Australia who have downloaded any of my books in the last ninety days, and the more than one thousand people who have bought any of my books on Amazon just in this month of June, 2021. I do not write to offend or

hurt anyone's feelings, but the truth is always objective, and I always try to write with the truth. In my country we use the vulgar term "No To So So Mot", to qualify the importance of the facts and their veracity. When any honest Ecuadorean Guinean speaks, writes, dances, sings or feels, he does it for his country, for better or worse. This book is for those who love reading, writing, and knowing how to live in peace with oneself and with the world, that is, to be happy. Happiness is a choice even in the midst of hell. It is true that the environment, especially if it is a hostile and oppressive environment, always tries to create all possible levels of unhappiness so that one somehow gives up but that is precisely what all the inhabitants of the oppressed peoples of the world share, the certainty that doing what one likes for the good of the majority is always the greatest expression of Freedom and the struggle for justice and peace. And not everyone is a politician, because politics is a profession that does not interest everyone. Thank you for reading these lines. 27.06.2021 Javier Clemente Engonga,

are textbooks available on kindle unlimited: How to Publish Academic Books: A Guide to Publishing Monographs, Edited Volumes, Textbooks, and Theses Nitin Liladhar Rane, Saurabh Choudhary, Jayesh Rane, 2024-12-05 The academic book publishing sector has a key function when it comes to knowledge production and dissemination across various disciplines. For researchers, scholars, and educators, the process of moving from concept to publication is rarely a trivial task, and often involves the use of imagination, perseverance, and teamwork. Publishing a monograph, an edited volume or a textbook, or turning your thesis into a book can be painful. This book will help you demystify the world of academic book publishing, offering authors a guide to navigating the complicated process with success. This guide aims to provide authors with the knowledge of tools and resources needed to publish a book that reflects their research. If you want a sneak peek into the workings of scholarly publishing, it features advice from senior authors, publishers and academics with an intimate familiarity with the academic publishing process. Divided into chapters, the book covers the major elements of the publishing journey: steps to writing the proposal, advice on working with publishers, and challenges of the current moment, like open access and new fields of study. The first step to getting published is learning to write a scholarly manuscript or book proposal. Writers need to know how to present their research in front of potential publishers. It necessitates, then, not just a firm grasp on the work in question but a facility for conveying the relevance of the work and its potential to make a difference. Therefore, it is very important to tread carefully through the relationship with the publishers, as the success of publishing partnerships relies heavily on trust, collaboration, and shared vision for the book. Open access publishing for scientific journals has played an increasingly important role in the ever-evolving academic world. There are new ways for authors to disseminate their work and increase the accessibility of research through open access. It is an exciting time to be an author, but it is also a challenging time in terms of financial viability and finding new publishing models. This section deeply studies the influence of open access so that authors can better develop books around it. Many students work years on their theses, and getting them published can greatly aid their academic careers. It is not simply editing; this means changing the format to suit for wider academic publication and conforming to the expectations of the publisher. This book is a road map for authors making this transition. For

authors in emerging or interdisciplinary fields, publishing can bring unique challenges. There may not be established publishing pathways in these fields, or the intended audience may be smaller and more specialized. Despite these challenges, there are great rewards to publishing in such fields, and this book outlines strategies to achieve their success. Authors will discover how to seek the ideal publisher, determine their target market, and how to frame their work to have a noteworthy effect in their area. Technological advancements, global trends, and academic expectations have all combined to shape the future of academic book publishing. By the end of this book, readers will be equipped with a fundamental understanding of the academic publishing process. From preparing manuscripts and working with publishers to navigating new models of publishing, this guide arms authors with practical advice and strategies to ensure their research becomes a published book. It is our goal that this book helps those who hope to disseminate their research through publication of scholarly books.

are textbooks available on kindle unlimited: The Business of Digital Publishing Frania Hall, 2022-04-28 Thoroughly revised and updated throughout, the second edition of *The Business of Digital Publishing* provides an essential introduction to the development of digital products in the book and journal industries today. Offering a fundamental overview of the main technological developments that have influenced the growth of digital publishing, the author introduces students to the key terms and concepts that make digital publishing possible. The four key publishing sectors (professional reference, academic, education and trade) are explored in detail, providing students with the technical literacy to understand digital developments and examine the growth of new business models. In this edition, sections have been updated to address the growth of audiobooks, reading apps, metadata, and open access, while original case studies address key issues such as digital-first publishing, EPUB, social media and crowdsourcing. Also covered are the key issues and debates that face the industry as a whole, such as pricing and copyright, and their impact on the industry is explored through relevant case studies. Taken together, the chapters examine the challenges of digital publishing and explore the opportunities it provides to develop new and diverse audiences. *The Business of Digital Publishing* remains an invaluable resource for any publishing student looking for a starting point from which to explore the world of digital publishing.

are textbooks available on kindle unlimited: EL PLAN DE DIOS, EL PLAN DEFINITIVO DE REDENCIÓN DE LA HUMANIDAD JAVIER CLEMENTE ENGONGA AVOMO, 2021-10-10 La humanidad es una creación excepcional de Dios, de la Creación. El ser humano no puede destruirse sin destruir igualmente esa parte de su divinidad que existe y participa en la acción de propiciar el mejor futuro posible para este mundo tan especial que es la existencia. El Plan de Dios es el destino de la humanidad revelada en profecías desde lo más remoto de la antigüedad de las sociedades humanas y cuyo destino, siempre renovado, es el Pla Definitivo de Redención de la Humanidad. Dios no comete errores y el mayor error de la humanidad ha sido siempre poner en duda la infalibilidad de su propio Creador, y fijándose en los errores de su propia existencia el ser humano ha dejado de verse como en verdad es, un ser supremo cuando así lo decide ser sobre todo, cuando recuerda que Dios vive en él. Todos los caminos de bien conducen hacia Dios, mientras que los caminos de mal nos alejan de su luz, y eso lo sabemos cada vez que obramos mal. Esa es la gran verdad. Obrar bien es actuar conforme a los designios de Dios o mejor dicho, caminar con cuidado mirando bien nuestros pasos y sin mirar atrás. Gracias por leer estas líneas.

Hopefully, you're not part of the 46%, but even if you are, you can still fix your spending and get your finances back on track. With some out-of-the-box thinking, simple lifestyle changes, and a thoughtful evaluation of your spending, you can have enough left over to save and invest. In Attack Your Expenses, here is just a fraction of what you will discover: The 4 spinning plates of personal finance that you need to balance, and how each will bring you closer to financial freedom The main expenses you should focus on reducing to make a significant impact on your cost of living A unique living arrangement that, in some cases, will have you being paid to live in someone else's house How you can better food while cutting down on your grocery bills at the same time How sharing with others can pay off for you, not just socially, but also mentally and financially The inaccurate beliefs about money that could be keeping you from building significant wealth Extreme examples of creative frugality that show you just what's possible when it comes to saving money And much more. If you're serious about securing your financial future without sacrificing, you are in the right place.

Este libro no es una autobiografía, ni un montón de líneas agrupadas al azar, y para aquellos que esperan tales cosas, tendrán que esperar aún un poco más. Vivir en África es el sueño de los exiliados, y cambiar África es el sueño de los que no se movieron; pero el sufrimiento de África es la obra de muchos irresponsables, y cuando se llama cada cosa con su nombre, se cambia el destino y el mañana desde el presente. Y no digo ciertamente que mi verdad esté carente de faltas, pues entiendo que la perfección no es algo que se enseña, y si se pretende aprender tal cosa solo puede conseguirse cuando se ha aprendido lo suficiente. Cuando se nace con una mentalidad diferente, la probabilidad de ser un reaccionario es bastante improbable. Y si se conoce los acontecimientos de la historia, entonces se entiende que el azar es a causal, y en realidad la existencia no debería ser tan complicada como eso que al parecer creamos cada día. Las posibilidades de ser la mejor versión de nosotros mismos cada día no es la tarea más sencilla del mundo, y es un problema en la vida de muchos que aun sueñan y no han aprendido que el tiempo no es una broma. En definitiva, este libro no es más que una llave, o una puerta, o una idea para

aquellos que nacen para reinar, pero aún no lo saben. Gracias por leer estas líneas y gracias a Dios por ser grandiosos. Javier Clemente Engonga. 20.09.2021

are textbooks available on kindle unlimited: UN PAÍS DIFERENTE JAVIER CLEMENTE ENGONGA AVOMO, Pocos países en el mundo tienen una verdadera posibilidad de ser libres, independientes y prósperos como la República de Guinea Ecuatorial. Pero intentar reinventar la rueda tantas veces pone en duda no solo la credibilidad sino también la eficiencia de querer construir castillos sobre la arena. Muchas regiones ha perdido la oportunidad de crecer debido a muchas malas decisiones, tras las cuales solo imperaba la corrupción y la ignorancia. Volar sin aprender a caminar es bastante arriesgado, pero construir una nación sin objetivos nacionales, sin nacionalismo, patriotismo y hermandad, es volver a revivir el pasado del sometimiento a la oscuridad. Es verdad, todos somos guineanos, pero muchas veces se pone en duda lo que algunos sienten por sus hermanos cuando oprimen con todas sus decisiones, el bienestar de una mayoría que ya no sabe ni como expresarse, esa mayoría apolítica que solo pide y exige paz, bienestar y prosperidad, porque es más que su derecho. Pero hablar así en este país es más que hablar de política, es ofensivo para el que no tolera ni la justicia ni la libertad, porque hablar de paz es doloroso para los que destruyen la paz. are textbooks available on kindle unlimited: CIENCIA DEL CIELO: EL PODER DE UNA PROFECIA JAVIER CLEMENTE ENGONGA AVOMO, Este libro se lo dedico de manera muy explícita a todos los católicos del mundo, a todos los cristianos. A todas esas personas que quieren a Dios más que a nada material y lo único que desean conseguir al final de su camino en esta vida es la satisfacción de haber servido bien al Creador; para estas personas son estas líneas, este libro de Dios. Somos dioses, nos dijo Cristo, pero vivimos como animales mortales. Este cuerpo, que es solo un traje, esconde lo mejor de lo que somos. Los disfraces de colores que llevamos hacen que nos veamos diferentes los unos de los otros y esa es la mayor ilusión de la especie del ser humano, pues todos somos uno, somos almas unidas por un solo destino. Ese destino es el plan divino, el plan de Dios, la obra de sus manos, y nosotros, todos y cada uno somos importantes, elementos de la vida que de Dios emana. Cuando te vas de este mundo no te llevas nada pero lo que dejas a tu paso es mucho amor o mucho dolor, y solo de uno mismo depende. El presente es importante para hacer las cosas bien, y el pasado solo es el recuerdo de nuestros errores y debilidades a lo largo del camino, en forma de experiencias. Este libro no es para todos, porque no todos buscan al Creador así que si en tus manos han llegado estas líneas entonces eres de los nuestros, de ese pueblo unido en el mundo que vive mirando a Dios, mirando al Cielo. are textbooks available on kindle unlimited: EIN LAND MIT VIELEN MÖGLICHKEITEN JAVIER CLEMENTE ENGONGA AVOMO, Nur wenige Länder auf der Welt haben eine echte Chance, frei, unabhängig und wohlhabend zu sein, wie die Republik Äquatorialguinea. Aber der Versuch, das Rad neu zu erfinden, stellt nicht nur die Glaubwürdigkeit, sondern auch die Effizienz des Versuchs in Frage, Schlösser auf Sand zu bauen. Viele Regionen haben aufgrund zahlreicher Fehlentscheidungen, hinter denen nur Korruption und Unwissenheit steckten, die Chance auf Wachstum verpasst. Zu fliegen, ohne laufen zu lernen, ist schon riskant genug, aber eine Nation ohne nationale Ziele, ohne Nationalismus, Patriotismus und Brüderlichkeit aufzubauen, bedeutet, die Vergangenheit der Unterwerfung unter die Finsternis wieder aufleben zu lassen. Es ist wahr, wir sind alle Guineer, aber was einige für ihre Brüder empfinden, wird oft in Frage gestellt, wenn sie mit all ihren Entscheidungen das Wohlergehen einer Mehrheit unterdrücken, die nicht mehr weiß, wie sie sich ausdrücken soll, diese unpolitische Mehrheit, die nur Frieden, Wohlergehen und Wohlstand fordert, weil das mehr als ihr Recht ist. Aber in diesem Land so zu reden, ist mehr als über Politik zu reden, es ist beleidigend für diejenigen, die weder Gerechtigkeit noch Freiheit dulden, denn über Frieden zu reden, ist schmerzhaft für diejenigen, die den Frieden zerstören. are textbooks available on kindle unlimited: DER ENDGÜLTIGE PLAN FÜR DIE ERLÖSUNG DER MENSCHHEIT JAVIER CLEMENTE ENGONGA AVOMO, Der Mensch ist eine außergewöhnliche Schöpfung Gottes, der Schöpfung. Der Mensch kann sich nicht selbst zerstören,

ohne auch den Teil seiner Göttlichkeit zu zerstören, der existiert und an der Aktion teilnimmt, die bestmögliche Zukunft für diese besondere Welt der Existenz zu schaffen. Der Plan Gottes ist das Schicksal der Menschheit, das in den Prophezeiungen seit den ältesten Zeiten der menschlichen Gesellschaften offenbart wurde und dessen immer wieder erneuerte Bestimmung der endgültige Plan zur Erlösung der Menschheit ist. Gott macht keine Fehler, und der größte Fehler der Menschheit bestand schon immer darin, die Unfehlbarkeit ihres eigenen Schöpfers in Frage zu stellen. Indem er sich auf die Fehler seiner eigenen Existenz konzentrierte, hat der Mensch aufgehört, sich selbst so zu sehen, wie er wirklich ist: ein erhabenes Wesen, wenn er es sein will, und vor allem, wenn er sich daran erinnert, dass Gott in ihm lebt. Alle guten Wege führen zu Gott, während böse Wege uns von seinem Licht wegführen, und das wissen wir jedes Mal, wenn wir etwas Falsches tun. Das ist die große Wahrheit. Das Gute zu tun bedeutet, nach dem Willen Gottes zu handeln, oder besser gesagt, sorgfältig zu gehen, auf unsere Schritte zu achten und nicht zurückzuschauen. Javier Clemente Engonga, 10.08.2021
