free korean textbooks: The Politics of Korean Language Textbooks in the Two Koreas

Dong Bae Lee, 2023-12-01 This book investigates the politics embedded in the Korean-language textbooks utilised between 1895 and 2019, within the context of one Korea (pre-colonial and colonial eras), the divided Koreas, and an ethnic Korean group residing in Japan (Chongryon). By analysing the inclusions and omissions from Korean-language the author successfully highlights the impact of Korean politics, making clear how rulers have attempted to control their citizens and legitimize their rule by using primary school Korean-language textbooks as a medium for political education and inculcation. It succinctly displays how different visions of 'ideal citizenship' have been presented in Korea and traces the resulting shift in views towards neighbouring nations as a result, identifying how different rival countries were demonized at different times. This chapter also shows some consistent omissions, such as the lower classes and marginalized individuals within their respective nations. Presenting recommendations for potential improvements of the content of future textbooks this study will be of interest to students of Asian Studies, Post-colonial Studies, Critical Curriculum Studies, Critical Discourse Studies, and Korean Studies.

free korean textbooks: *Understanding Multimodal Discourses in English Language Teaching Textbooks* Christopher A. Smith, 2022-08-11 Textbooks are indispensable components and in some case the cornerstones of the mission of English Language Teaching (ELT). However, they are artefacts of a pedagogical culture that rarely echo the concerns of their most prolific consumers: teachers and students. This book offers a useful framework for evaluating ELT textbooks from a critical discourse perspective; one that is based on sound current research but also offers practical guidance to teachers. Building from a foundational understanding of ELT textbooks, the author presents a systematic procedure to critically analyze their multimodal discourse, examine how those discourses are negotiated between teachers and students in class, and measure how those consumers privately value the lessons. The book provides teachers with the tools they need to select and adapt materials based on critical multimodal discourse analysis, where not only the text but the pictures, websites, audio, visual elements too are subjected to a process which can reveal underlying ideologies, assumptions, omissions and reifications. The triangulated approach, demonstrated in a series of vignettes featuring Korean university students and native-English-speaking instructors, can inform textbook choice, instigate change, and inspire lesson re-contextualization to best suit the needs of its primary consumers.

free korean textbooks: History Textbooks and the Wars in Asia Gi-Wook Shin, Daniel C.

Sneider, 2011-02-08 Over the past fifteen years Northeast Asia has witnessed growing intraregional exchanges and interactions, especially in the realms of culture and economy. Still, the region cannot escape from the burden of history. This book examines the formation of historical memory in four Northeast Asian societies (China, Japan, South Korea, and Taiwan) and the United States focusing on the period from the beginning of the Sino-Japanese war in 1931 until the formal conclusion of the Pacific War with the San Francisco Peace Treaty of 1951. The contributors analyse the recent efforts of Korean, Japanese, and Chinese scholars to write a 'common history' of Northeast Asia and question the underlying motivations for their efforts and subsequent achievements. In doing so, they contend that the greatest obstacle to reconciliation in Northeast Asia lies in the existence of divided, and often conflicting, historical memories. The book argues that a more fruitful approach lies in understanding how historical memory has evolved in each country and been incorporated into respective master narratives. Through uncovering the existence of different master narratives, it is hoped, citizens will develop a more self-critical, self-reflective approach to their own history and that such an introspective effort has the potential to lay the foundation for greater self- and mutual understanding and eventual historical reconciliation in the region. This book will be essential reading for students and scholars of Asian history, Asian education and international relations in East Asia.

free korean textbooks: Western-Centrism and Contemporary Korean Political Thought Jung In Kang, 2015-08-20 This book is an outgrowth of critical examination of Western political theory embedded in Western-centrism and the tumultuous ideational processes by which contemporary Korean political theory and reality have intensely interacted (both in convergent and divergent ways) with it. regarding Western-centrism: What is Western-centrism? How is Western-centrism to be compared and contrasted with other forms of centrism such as Sinocentrism, capitalism (bourgeois-centrism), patriarchy (male-centrism), and racism (white-centrism)? How has Western-centrism evolved in world history and in the history of Western political thought? How has Western-centrism shaped the evolution of contemporary Korean political thought? What kinds of ill effects has Western-centrism brought about in Korean society and academia? And, ultimately, how can Western-centrism be overcome?

free korean textbooks: *Global Easts* Jie-Hyun Lim, 2022-07-05 South Korean historian Jie-Hyun Lim, raised under an anticommunist dictatorship, turned to Marxian thought to explain his country's development, even as he came to struggle with its Eurocentrism. As a transnational scholar working in postcommunist Poland, Lim recognized striking similarities between Korean and Polish history and politics. One realization stood out: Both Korea and Poland—at once the “West” for Asia yet “Eastern” Europe—had been assigned the role of “East.” This book explores entangled Easts to reconsider global history from the margins. Examining the politics of history and memory, Lim reveals the affinities linking Eastern Europe and East Asia. He draws out commonalities in their experiences of modernity, in their transitions from dictatorship to democracy, and in the shaping of collective memory. Ranging across Poland, Germany, Israel, Japan, and Korea, Lim traces the global history of how notions of victimhood have become central to nationalism. He criticizes mass dictatorships of right and left in the Global Easts, considering Nazi jurist Carl Schmitt's notion of sovereign dictatorship and the concept of decisionist democracy. Lim argues that nationalism is inherently transnational, critiquing how the nationalist imagination of the Global East has influenced countries across borders. Theoretically sophisticated and conceptually innovative, this book sheds new light on the transnational complexity of historical memory and imagination, the boundaries between democracy and mass dictatorship, and the fluidity of East and West.
