ivyplus textbooks: *Poison Ivy* Evan Mandery, 2025-03-18 Hailed as a “staggering portrait of inequality in America” (Philip Dray) *Poison Ivy* tells the bigger, seedier story of how elite colleges create paths to admission available only to the wealthy, despite rhetoric to the contrary. In a “lively and trenchant” (Washington Monthly) account, Evan Mandery—a Harvard graduate and current professor at a public college that serves low- and middle-income students—reveals how tacit agreements between exclusive “Ivy-plus” schools and white affluent suburbs create widespread de facto segregation. And as a college degree continues to be the surest route to upward mobility, the inequality bred in our broken higher education system is now a principal driver of skyrocketing income inequality. Mandery contrasts the lip service paid to “opportunity” by so many elite colleges and universities with schools that actually walk the walk. Now in an accessible paperback format, *Poison Ivy* is a “no-holds-barred takedown” (Forbes) that synthesizes fascinating insider information on everything from how students are evaluated, unfair tax breaks, and questionable fundraising practices to suburban rituals, testing, tutoring, tuition schemes, and more. This bold, provocative indictment of America's elite colleges shows us exactly what's at stake—and what will be possible if

we muster the collective will to transform it.

ivyplus textbooks: Doing the Right Thing Marybeth Gasman, 2024-08-20 An honest confrontation of systemic racism in faculty hiring—and what to do about it While colleges and universities have been lauded for increasing student diversity, these same institutions have failed to achieve any comparable diversity among their faculty. In 2017, of the nation's full-time, tenure-track and tenured faculty, only 3 percent each were Black men, Black women, Hispanic men, and Hispanic women. Only 6 percent were Asian/Pacific Islander men, 5 percent were Asian/Pacific Islander women, and 1 percent were American Indian/Alaska Native. Why are the numbers so abysmal? In Doing the Right Thing, Marybeth Gasman takes a hard, insightful look at the issues surrounding the recruitment and hiring of faculty of color. Relying on national data and interviews with provosts, deans, and department chairs from sixty major universities, Gasman documents the institutional forces stymieing faculty diversification, and she makes the case for how such deficiencies can and should be rectified. Even as institutions publicly champion inclusive excellence and the number of doctoral students of color increases, Gasman reveals the entrenched constraints contributing to the faculty status quo. Impediments to progress include the alleged trade-off between quality and diversity, the power of pedigree, the rigidity of academic pipelines, failures of administrative leadership, lack of accountability among administration and faculty, and the opacity and arbitrariness of the recruitment and hiring process. Gasman contends that leaders must acknowledge institutional failures of inclusion, pervasive systemic racism, and biases that restrict people of color from pursuing faculty careers. Recognizing that individuals from all backgrounds are essential to the creation and teaching of knowledge, Doing the Right Thing puts forth a concrete call for colleges and universities to take action and do better.

ivyplus textbooks: Dream School Jeffrey Selingo, 2025-09-09 New York Times Bestseller! From the bestselling author of Who Gets In and Why, a must-have playbook for families coping with a more stressful era of startling low admission rates and sky-high prices—one that widens the aperture beyond the Top 25 schools and connects students, parents, and counselors with quality, affordable choices. Attending college has long been a rite of passage for millions of teens and a bedrock of the American dream. But that well-worn path has lately taken a wrong turn, denying admission even to super-achievers and putting intolerable stress on family finances. Now, in Dream School Jeffrey Selingo shifts the spotlight from how colleges pick students to how students can better pick colleges. With test-optional policies and grade inflation leveling the playing field for applicants, getting into prestigious schools has become a kind of lottery. "Plan A" may work out, but increasingly it isn't—so Selingo urges families to ditch the "Top 25 or bust" mindset and look beyond the usual suspects. Hidden-gem schools with incredible value and rich opportunities are waiting to

be discovered. Backed by unparalleled research—and an eye-opening survey of more than 3,000 parents—Dream School reveals what really matters in a college: strong job prospects after graduation, hands-on learning experiences, and a sense of belonging. To help students find their perfect match, Selingo highlights 75 accessible and affordable colleges that will satisfy those priorities. Organized into three easy-to-digest sections, Dream School explains why elite college degrees turn out to matter less than you think, why many parents and students are choosing value over prestige, and how to make sure the degree really pays off. In these pages, Selingo's engaging style and expert insights turn what is often an unnavigable maze into a clear roadmap. Destined to become the ultimate guide for families crossing the perilous college admissions landscape, Dream School isn't just a book—it's a lifeline for those who can find themselves trapped in an overwhelming process.

Drezner, 2013-04-17 Winner of the Association of Fundraising Professionals 2014 Skystone Partners Research Prize in Philanthropy and Fundraising Traditionally, institutions have relied on wealthy White men to reach their fundraising goals. both archive and contemporary, favourable and critical, concise and epic - of these extraordinary cultural icons as they pass the astonishing milestone of 50 years as rock's pre-eminent band.
