In *Rich Is Not a Four-Letter Word*, veteran financial journalist and pundit Gerri Willis takes on the progressive mind-set championed by liberals that gives government bureaucrats the right to decide what's best for us, resulting in bigger government programs, more bureaucracy, and more wasted taxpayer money. She dissects Obamacare and Democratic tax initiatives to show how they have hamstrung the average American. Then she shows us how to overcome these left wing financial hurdles and grow our nest eggs, despite the political pickpocketing from Washington. Among the topics she tackles in the book: · How the progressive agenda has robbed Americans of their financial freedom (a new Blackrock survey shows that 4 out of 10 Americans haven't even started saving for retirement)--and how to get it back; · How the wide-open spigot of college loan dollars has encouraged college administrators to boost tuition each and every year--and how we can successfully navigate the system; · How, with a stroke of President Obama's pen, company-sponsored health-care coverage was put on deathwatch, as companies have begun to abandon employee health-care coverage and opt to pay a less expensive federal penalty; · Why the knee-jerk progressive response to the 2008 market crash and subsequent recession has acted as an albatross on the shoulders of American corporations, keeping corporate tax rates at sky high levels among Western nations--and what we can do to create jobs and jumpstart the economy.

Start-ups like Twitter, Twitch, and Lyft had achieved extraordinary success despite their disregard for "best practices." In contrast, other startups deemed highly promising often failed, even when they seemed to do everything right. Seeking answers, Maples and coauthor Peter Ziebelman set out to discover the hidden forces that drive extraordinary start-up success. Pattern-breaking success, they reveal, demands a different mindset and actions to harness developments others miss or that may, at first, seem crazy. *Pattern Breakers* is filled with firsthand storytelling about initial interactions with some of the most transformative start-ups of recent times. Maples and Ziebelman vividly illustrate an unexpected world where chaos is welcome, naysayers are a positive signal, movements galvanize believers—but one that ultimately change the future. They challenge us to rethink how to transcend the ordinary and achieve the extraordinary.

America stands at a precipice; limitless consumption, reckless economics, and disregard for the environment have put the country on a collision course with disaster. It's up to a younger generation to rebuild according to new forms of organization, and Share or Die is a collection of messages from the front lines. From urban Detroit to central Amsterdam, and from worker co-operatives to nomadic communities, an astonishing variety of recent graduates and twenty-something experimenters are finding (and sharing) their own answers to negotiating the new economic order. Their visions of a shared future include: · Collaborative consumption networks instead of private ownership · Replacing the corporate ladder with a "lattice lifestyle" · Do-it-yourself higher education As a call-to-action, "share or die" doesn't only refer to resource depletion, disappearing jobs, or stagnating wages. It refers to social death too, and to finding the commonsense ideas and practices needed to not only merely survive, but also to build a place where it's worth living. A series of forays into uncharted territory, this graphically rich collection of essays, narratives, and how-tos is an intimate guide to the new economic order and a must-read for anyone attempting to understand what it means to live as part of Generation Y.
