telugu textbooks: *Radhakrishnan* K. Satchidananda Murty, Ashok Vohra, 1990-01-01 This book presents a critical and comprehensive biography of Radhakrishnan. The authors explain how Radhakrishnan, who had a British knighthood and an Oxford Professorship, and who did not participate in India's struggle for freedom, became important in the political life of Independent India. They show how this philosophy professor and vice chancellor often expressed radical views, developed rapport with national leaders, and became President of Indian under Nehru without losing the goodwill and regard of either the British intellectuals or the colonial government of India. It is the thought of Sarvepalli Radhakrishnan that is most often presented in the West as Hinduism. Through an analysis of his autobiographical sketches, writings of those who knew him and worked with him, and documents, the authors come to grips with Radhakrishnan's complex personality which, in spite of his greatness and varied achievements, is all too human.

telugu textbooks: *Languages and Literary Cultures in Hyderabad* Kousar J Azam, 2017-08-09
There is great interest in recent scholarship in the study of metropolitan cultures in India as evident from the number of books that have appeared on cities such as Delhi, Mumbai, Chennai and Kolkata. Though Hyderabad has a rich archive of history scattered in many languages, very few attempts have been made to bring this scholarship together. The papers in this volume bring together this scholarship at one place. They trace the contribution of different languages and literary cultures to the multicultural mosaic that is the city of Hyderabad How it has acquired this uniqueness and how it has been sustained is the subject matter of literary cultures in Hyderabad. This work attempts to trace some aspects of the history of major languages practiced in the city. It also reviews the contribution of the various linguistic groups that have added to the development not just of varied literary cultures, but also to the evolution of an inclusive Hyderabad culture. The present volume, it is hoped, will enthuse both younger and senior scholars and students to take a fresh look at the study of languages and literary cultures as they have evolved in India's cities and add to the growing scholarship of metropolitan cultures in India.

telugu textbooks: *Construction of the Other, Identification of the Self* Martin Tamcke, Gladson Jathanna, 2012 This volume of diverse contributions revisits the European religious construction of the Indian Other. In their attempt to identify their European Self, missionaries from Germany constructed India as their Other and archived such constructions. Such archival narratives epitomize the conviction of these missionaries in their Christian faith and their belief in the superiority of the European Self. These narratives, however, provide readers (for whose eyes they were not meant originally) with spaces to locate their own past and to identify their own Self.
