**south sudan primary 8 textbooks: Teaching Peace and Conflict** Catherine Vanner, Spogmai Akseer, Thursica Kovinthan Levi, 2022-06-14 This book illustrates the multiple roles of textbooks as victim, transformer, and accomplice to conflict by introducing the Intersecting Roles of Education in Conflict (IREC) framework for use in the research, development, production, distribution, and dissemination of textbooks and learning materials. The framework illustrates these three potentially overlapping roles by mapping the complex educational contexts of conflict-affected societies and considering how textbooks, learning materials, and education systems more broadly may simultaneously operate within these various roles. Country case studies from Asia, Europe, Africa, and the Middle East are used to analyze primary and secondary school textbook development, content, and application from a variety of approaches that articulate conflict as protracted and/or socio-political violence. The breadth of case studies shows how conflict discourse circulates in educational systems and materials in a wide range of contexts, indicating that the complexity of the relationship between textbooks and conflict is not unique to one culture, geographic region, or type of conflict.

**south sudan primary 8 textbooks: Education Sector Plans and their Implementation in Developing Countries** Roy Carr-Hill, 2023-03-09 This book examines the factors affecting the successful implementation of Education Sector Plans in developing countries. It provides a detailed comparison that draws on data from 27 countries to offer careful research conclusions and policy recommendations. Offering a detailed comparison of the schooling situation (e.g. availability of potable water and toilets, provision for the disabled) as well as educational outcomes (both test scores and percentages out-of-school) from the 27 countries using empirical evidence, the book examines the resources that have been invested in different education sectors, investigating the development and success of each plan. The volume uses correlation analysis to compare factors including the availability of government funding, national characteristics, ministerial decisions, influences of country and donor stakeholders, as well as district- and school-level issues. Thorough comparative analysis of the data is then demonstrated, with two measures of achievements to identify which factors can be considered as the most important in order to reach realistic policy and research conclusions. Timely and engaging, this book will be of great interest to researchers, scholars, and postgraduate students in the field of education and international development, comparative education, and international education more broadly.

**south sudan primary 8 textbooks: South Sudan** Great Britain: Parliament: House of Commons: International Development Committee, 2012-04-12 The Republic of South Sudan gained independence from the Republic of Sudan on 9 July 2011, following civil wars that began in 1955 and left more than two million dead. Challenges faced by the new government are daunting with some of the worst social indicators globally. The Department for International Development has quickly established and scaled up a full office in Juba and developed a four-year development and humanitarian aid programme amounting to some £360 million making South Sudan one of the largest recipients of UK bilateral aid. Regrettably, the delivery of DFID's programme is already at risk before it has properly begun with the humanitarian crisis created by the loss of South Sudan's oil revenue, combined with the increasing number of returnees and refugees arriving in the country and ongoing inter-tribal violence. The South Sudan government has introduced austerity measures to cope with the loss of 98% of its income but the UK, and other donors, cannot bankroll South Sudan through this austerity period. DFID has already re-focussed its development programmes away from long-term development towards supporting the most vulnerable people and saving lives. Overall, the Committee believes that DFID's programme is diverse and challenging, although it is too early to judge its success. There have been well-documented difficulties with both World Bank and UN administered pooled funds in South Sudan and there is concern at channelling aid through them. The emphasis that DFID gives to the equality of girls and women in its programme is welcomed and, despite the pressures and uncertainties this should be maintained

**south sudan primary 8 textbooks: Hope, Pain & Patience** Friederike Bubenzer, Orly Stern, 2011 As in many post-conflict countries, the roles played by women during Sudan's long-lasting liberation struggle continue to go unrecognised. Thousands of women joined the southern liberation struggle in response to a political situation that affected whole communities, leaving the comfort and security of their homes not just to accompany their husbands but to fight for freedom, democracy, equity, justice, rights and dignity. As well as playing roles in the fighting, women acted as mothers, teachers and nurses, and filled numerous other roles during the war. The long-standing struggle for

the liberation of South Sudan severely altered traditional gender roles as well as the societal structure as a whole. Women also suffered during the war. An increase in HIV, hunger and violence, particularly sexual violence, characterised their lives in Sudan as well as in exile for many years. Life in the post-conflict period continues to be challenging, as women try to carve out a meaningful life in a tenuous peace. This volume documents the lives of different groups of women in South Sudan. It seeks to understand the contributions made by a range of women both during the conflict and today. It describes the women of South Sudan: who they are, what they have experienced, what they hope and feel, what they experienced in the war, and whether the end of the war has brought meaningful change--Back cover.

**south sudan primary 8 textbooks: *South Sudan's Endless Sorrows*** Lul Gatkuoth Gatluak, 2023-11-28 About the Book In depth, comprehensive, and extensively researched, *South Sudan's Endless Sorrows* chronicles the complex history of South Sudan and its long, bitter struggle for freedom. South Sudan's long battle with colonization and invasion of foreign powers began as early as the twelfth century and has continued up until the twentieth century, when the struggle for liberation came to a long period of bloody civil unrest and war. To this day, South Sudan still struggles to find its own identity, voice, and freedom. With a devout love of his homeland and the people he holds dear, Gatluak's history of South Sudan doubles as a heart-wrenching plea for intervention, compromise, and peace in the country that has been ransacked by violence for centuries. About the Author Lul Gatkuoth Gatluak is a South Sudanese American born in the Puldeng village near Bilpam, at the border of South Sudan and Ethiopia. Lul has always had a drive and passion for education; after moving to the United States, he received his high school diploma, his associate's degree in Liberal Arts from Minneapolis Community and Technical College, a bachelor of

**south sudan primary 8 textbooks: Reflections on the Future of Human Rights** Gentian Zyberi, Johan Karlsson Schaffer, Carola Lingaas, Eduardo Sánchez Madrigal, 2023-07-31 This book aims to prospectively conjecture about what the coming decades may hold for human rights. The authors in this volume discern where current trends are likely to lead and try to make sense of the future they herald. Human rights - as a legal, political, and social practice - have experienced significant achievements and successes, some notable setbacks and failures, and numerous unprecedented and unforeseen events and developments. Sceptics even claim that the idea of human rights has failed to deliver on its radical promise of emancipation. The chapters in this volume deal with ways to reimagine the existing human rights framework, the future of the African human rights system, the place of human rights in economic policy-making, reparations for chattel slavery, and the right to free education for all children. The thematic and disciplinary breadth of contributions makes this book a resource for scholars, practitioners, and students alike. In analysing and critically discussing matters of climate change, right to a healthy environment, preventing disasters and building resilience, and resource management it provides timely and important contributions. However, the book does not limit itself to discussing current-day challenges, it also covers issues concerning the regulation of artificial intelligence and algorithmic decision-making, as well as potential paths in the future relationship between the African and the European Human Rights Court. Reflections on the Future of Human Rights will be beneficial to students, scholars, and researchers interested in international law, human rights, and politics. Overall, the book is suitable for anyone interested in human rights and their evolution in theory and practice. The chapters in this book were originally published as a special issue of Nordic Journal of Human Rights.
