washburn textbooks: (Re)Constructing Memory: Textbooks, Identity, Nation, and State James H. Williams, Wendy D. Bokhorst-Heng, 2016-07-08 This book engages readers in thirteen conversations presented by authors from around the world regarding the role that textbooks play in helping readers imagine membership in the nation. Authors' voices come from a variety of contexts – some historical, some contemporary, some providing analyses over time. But they all consider the changing portrayal of diversity, belonging and exclusion in multiethnic and diverse societies where silenced, invisible, marginalized members have struggled to make their voices heard and to have their identities incorporated into the national narrative. The authors discuss portrayals of past exclusions around religion, ethnicity, sexual orientation, as they look at the shifting boundaries of insider and outsider. This book is thus about “who we are” not only demographically, but also in terms of the past, especially how and whether we teach discredited pasts through textbooks. The concluding chapters provides ways forward in thinking about what can be done to promote curricula that are more inclusive, critical and positively bonding, in increasingly larger and more inclusive contexts.

washburn textbooks: Going Ape Brandon Haught, 2014-04-22 Before William Jennings Bryan successfully prosecuted John Scopes in the infamous “Scopes Monkey Trial,” he was a prominent

antievolution agitator in Florida. In *Going Ape*, Brandon Haught tells the riveting story of how the war over teaching evolution began and unfolded in Florida, one of the nation's bellwether states. It still simmers just below the surface, waiting for the right moment to engulf the state. The saga opens with the first shouts of religious persecution and child endangerment in 1923 Tallahassee and continues today with forced delays and extra public hearings in state-level textbook adoptions. These ceaseless battles feature some of the most colorful culture warriors imaginable: a real estate tycoon throwing his fortune into campaigns in Miami; lawmakers attempting to insert the mandatory teaching of creationism into bills; and pastors and school board members squabbling in front of the national media that descends into their small town. The majority of participants, however, have been, and still are, average people, and Haught expertly portrays these passionate citizens and the sense of moral duty that drives each of them. Given a social climate where the teaching of evolution continues to sharply divide neighbors and communities, *Going Ape* is a must-read for anyone concerned with the future of public education.

washburn textbooks: Chicago by the Book The Caxton Club, 2018-11-20 Despite its rough-and-tumble image, Chicago has long been identified as a city where books take center stage. In fact, a volume by A. J. Liebling gave the Second City its nickname. Upton Sinclair's *The Jungle* arose from the midwestern capital's most infamous industry. The great Chicago Fire led to the founding of the Chicago Public Library. The city has fostered writers such as Nelson Algren, Saul Bellow, and Gwendolyn Brooks. Chicago's literary magazines *The Little Review* and *Poetry* introduced the world to Eliot, Hemingway, Joyce, and Pound. The city's robust commercial printing industry supported a flourishing culture of the book. With this beautifully produced collection, Chicago's rich literary tradition finally gets its due. *Chicago by the Book* profiles 101 landmark publications about Chicago from the past 170 years that have helped define the city and its image. Each title—carefully selected by the Caxton Club, a venerable Chicago bibliophilic organization—is the focus of an illustrated essay by a leading scholar, writer, or bibliophile. Arranged chronologically to show the history of both the city and its books, the essays can be read in order from Mrs. John H. Kinzie's 1844 *Narrative of the Massacre of Chicago* to Sara Paretsky's 2015 crime novel *Brush Back*. Or one can dip in and out, savoring reflections on the arts, sports, crime, race relations, urban planning, politics, and even Mrs. O'Leary's legendary cow. The selections do not shy from the underside of the city, recognizing that its grit and graft have as much a place in the written imagination as soaring odes and boosterism. As Neil Harris observes in his introduction, "Even when Chicagoans celebrate their hearth and home, they do so while acknowledging deep-seated flaws." At the same time, this collection heartily reminds us all of what makes Chicago, as Norman Mailer called it, the "great American city." With essays from, among others, Ira Berkow, Thomas Dyja, Ann Durkin Keating, Alex Kotlowitz, Toni Preckwinkle, Frank Rich, Don Share, Carl Smith, Regina Taylor, Garry Wills, and William Julius Wilson; and featuring works by Saul Bellow, Gwendolyn Brooks, Sandra Cisneros, Clarence Darrow, Erik Larson, David Mamet, Studs Terkel, Ida B. Wells-Barnett, Frank Lloyd Wright, and many more.

Gardner, 2007-09-01 Stop looking for the Book of Mormon in Mesoamerica and start looking for Mesoamerica in the Book of Mormon! *Second Witness*, a new six-volume series from Greg Kofford Books, takes a detailed, verse-by-verse look at the Book of Mormon. It marshals the best of modern scholarship and new insights into a consistent picture of the Book of Mormon as a historical document. Taking a faithful but scholarly approach to the text and reading it through the insights of linguistics, anthropology, and ethnohistory, the commentary approaches the text from a variety of perspectives: how it was created, how it relates to history and culture, and what religious insights it provides. The commentary accepts the best modern scholarship, which focuses on a particular region of Mesoamerica as the most plausible location for the Book of Mormon's setting. For the first time, that location—its peoples, cultures, and historical trends—are used as the backdrop for reading the text. The historical background is not presented as proof, but rather as an explanatory context. The commentary does not forget Mormon's purpose in writing. It discusses the doctrinal and theological aspects of the text and highlights the way in which Mormon created it to meet his goal of "convincing . . . the Jew and Gentile that Jesus is the Christ, the Eternal God."

Plus, volumes and page numbers were recorded to provide for better documentation. Additionally, details of all licenses returned unexecuted were recorded. Beginning in 1936 the State of Alabama required more information on their marriage licenses including full birthdates and full names of both parents. This information was included if reported. This book is a handy tool for those with ancestors in Blount or adjoining counties.

washburn textbooks: Current trends in anglophone studies: cultural, linguistic and literary research: Javier GARCÍA RUANO, 2011 La publicación de este volumen representa un caso relativamente insólito. Un pequeño grupo de jóvenes investigadores de menos de treinta años convence a un grupo mucho más numeroso de la misma edad para celebrar en Salamanca la First Conference of Young Researchers on Anglophone Studies. El resultado es deslumbrante. No solo demuestran una gran capacidad organizativa, sino que los resultados individuales de las aportaciones científicas son sobresalientes. Este volumen, *Current Trends in Anglophone Studies*, recoge una selección revisada de las propuestas presentadas en el Encuentro y gira en torno a una estructuración tripartita clásica: estudios culturales, lingüísticos y literarios. En ella caben todos aquellos que se mueven en el campo de los estudios anglófonos. Cada uno de estos campos podría haber sido suficiente para celebrar un congreso, pero parece razonable que en este tipo de encuentros tengan cabida todos. De ese modo, este volumen se convierte en un ejemplo de aproximación interdisciplinar a los estudios anglófonos. Desde un punto de vista cuantitativo, los estudios culturales ocupan sin duda un espacio menor. Sin embargo, sobresale la variedad de temas tratados, así como la internacionalización de los autores, dentro de este apartado. Estudiantes

españoles e italianos acometen estudios relacionados con la música, la pintura, el cine, la traducción, la marginalidad social o el impacto de las nuevas tecnologías en la producción artística. Si no pareciera demasiado atrevido, podría decirse que estos jóvenes estudiosos irían más allá de lo que un día ya lejano pudieron imaginar Richard Hoggard o Raymond Williams. Los estudios aquí presentados reflejan, sin duda, la evolución que la propia sociedad ha experimentado en estos últimos cincuenta años y exploran la relación entre las prácticas culturales, la vida diaria, y los contextos económicos, políticos e históricos. No es de extrañar que una gran parte de las contribuciones presentadas en este volumen se centren en el estudio de la lengua, ya que la demanda del inglés se ha incrementado de forma considerable en los últimos años. Sobresalen los análisis puramente filológicos y sobre todo los relacionados con el aprendizaje del inglés como segunda lengua. Por eso, destacan estudios que contemplan rasgos morfológicos, léxicos o sintácticos. Sin embargo, el mayor número de participaciones hace referencia al ya citado aprendizaje del inglés como L2, tanto desde el análisis de materiales, como desde la práctica oral o escrita. Las contribuciones literarias ofrecen una evaluación teórica, formal e interpretativa de distintas tendencias desde perspectivas tanto interdisciplinares como interculturales. Cronológicamente los estudios abarcan textos desde el siglo XVIII hasta nuestros días, con un acento especial en los autores más contemporáneos y en el género narrativo. En general estos estudios se fijan en textos concretos y los analizan desde perspectivas culturales, sociológicas o psicológicas. Pero abundan menos las aproximaciones desde la teoría literaria, desde la técnica narrativa o, como tal vez cabría esperar al tratarse de estudiantes tan jóvenes, desde la aplicación de las nuevas tecnologías. Por el contrario, se repiten temas como los traumas heredados de la Guerra de Vietnam, las cicatrices del 11 de septiembre o los problemas de género.

Por todo ello, hay que felicitar a todos los participantes individuales y, sobre todo, a los organizadores del evento, y editores de este volumen, que han demostrado una enorme capacidad de trabajo y de saber hacer.
