Overview of Textbooks at STLCC

Textbooks at STLCC are essential tools that support students in their academic endeavors. The college offers a diverse selection of textbooks across various disciplines, ensuring that students have access to the materials needed for their courses. From introductory texts to advanced readings, the range of available textbooks caters to the diverse curriculum offered at STLCC.

Additionally, STLCC recognizes the financial burden textbooks can impose on students. As a response, the institution has implemented several initiatives aimed at making textbooks more affordable and accessible. Understanding these initiatives and the general landscape of textbooks at STLCC is crucial for students as they embark on their academic journeys.

Where to Find Textbooks

Finding textbooks at STLCC can be achieved through several avenues, each offering unique advantages.

Campus Bookstore

The primary source for textbooks at STLCC is the campus bookstore. Located on each STLCC campus, the bookstore stocks required and recommended texts for courses. Students can visit the bookstore to browse the selection, check availability, and purchase or rent textbooks directly.

Additionally, the bookstore often provides a buyback program, allowing students to sell back their used textbooks at the end of the semester.

Online Retailers

Another option for students is to explore online retailers. Websites such as Amazon, Chegg, and others often provide competitive pricing for both new and used textbooks. Shopping online can offer students the flexibility to compare prices easily and find the best deals.

Library Resources

STLCC's library system also offers access to textbooks. While not all textbooks will be available, the library may have copies of certain texts for students to use or borrow for short durations. This option is particularly beneficial for students looking to save money or who may need a textbook for only a limited time.

Buying vs. Renting Textbooks

Deciding whether to buy or rent textbooks is a significant consideration for students at STLCC. Each option has its benefits and potential drawbacks.

Benefits of Buying Textbooks

- Ownership: When students purchase textbooks, they have the benefit of owning the material, allowing for long-term use or resale.
- Highlighting and Notes: Owning a textbook allows students to annotate, highlight, and make notes directly in the text, which can enhance learning.

Benefits of Renting Textbooks

- Cost Savings: Renting textbooks can significantly reduce costs, as rental prices are often much lower than purchasing new or even used books.
- Flexibility: Renting allows students to obtain the required materials for a limited time, which is ideal for courses that do not require long-term use of the text.

Digital Textbook Options

As technology progresses, digital textbooks have become increasingly popular among students at STLCC. These options provide several advantages that can enhance the learning experience.

Accessibility and Convenience

Digital textbooks can be accessed from various devices, including tablets, laptops, and smartphones. This accessibility allows students to study anytime and anywhere, making it easier to integrate

learning into their busy schedules.

Interactive Features

Many digital textbooks come with interactive features such as videos, quizzes, and hyperlinks that can enrich the learning experience. These tools can help students engage more deeply with the material and facilitate understanding of complex concepts.

Cost-Effectiveness

Digital textbooks are often less expensive than their physical counterparts. Students can save money while still accessing the necessary materials for their courses.

Tips for Managing Textbook Costs

Managing the costs of textbooks is a challenge many students face. Below are effective strategies for keeping expenses in check.

- **Compare Prices:** Before purchasing or renting, compare prices from different sources, including the campus bookstore, online retailers, and rental services.
- **Utilize Library Resources:** Check the STLCC library for available textbooks, as this can save money on purchases or rentals.
- **Buy Used Textbooks:** Look for used textbooks, which can be significantly cheaper than new ones.
- **Form Study Groups:** By forming study groups, students can share textbooks and resources, allowing multiple individuals to benefit from a single purchase.
- **Check for eBook Versions:** Often, eBooks are cheaper than physical copies, so explore digital formats when available.

Conclusion

Navigating the world of textbooks at STLCC does not have to be daunting. By understanding the available resources, weighing the options of buying versus renting, and exploring digital alternatives, students can make informed decisions that best suit their academic needs and financial constraints. Utilizing the tips outlined in this article can further assist students in managing textbook costs effectively, ultimately contributing to a more successful and less stressful academic experience.

Q: What are the main sources for obtaining textbooks at STLCC?

A: The main sources for obtaining textbooks at STLCC include the campus bookstore, online retailers, and the college library system. Each of these options provides students with various choices suited to their needs.

Q: How can I save money on textbooks at STLCC?

A: Students can save money on textbooks by comparing prices among different sources, renting instead of buying, utilizing library resources, purchasing used textbooks, and checking for digital formats.

Q: Are digital textbooks available for all courses at STLCC?

A: While many courses at STLCC do offer digital textbook options, not all courses may have them available. It is advisable to check with instructors or the campus bookstore for specific course requirements.

Q: What are the benefits of renting textbooks?

A: Renting textbooks offers cost savings, flexibility, and the opportunity to use materials for a limited time without the commitment of ownership.

Q: Can I sell my textbooks back to the STLCC bookstore?

A: Yes, the STLCC bookstore has a buyback program where students can sell back their used textbooks at the end of the semester, providing an opportunity to recoup some costs.

Q: How do I know which textbooks are required for my courses?

A: Required textbooks for courses can typically be found on the syllabus provided by instructors or by checking the STLCC bookstore's list of required materials for each class.

Q: What should I do if I can't afford the textbooks I need?

A: If affordability is an issue, students should consider exploring library resources, seeking financial assistance, or discussing options with their instructors to find alternative solutions.

Q: Are there any programs at STLCC to help with textbook

costs?

A: Yes, STLCC has implemented various initiatives aimed at reducing textbook costs, including partnerships for digital access and programs to promote the use of open educational resources.

Q: Can I use my smartphone or tablet for digital textbooks?

A: Yes, digital textbooks can be accessed on smartphones, tablets, and laptops, providing convenient options for students to study on the go.

Q: What types of digital features can enhance my learning experience?

A: Digital textbooks often include interactive features such as videos, quizzes, and hyperlinks, which can help students engage with the material and improve understanding of complex subjects.

textbooks stlcc: Writing Centers and Learning Commons Steven J. Corbett, Teagan E. Decker, Maria L. Soriano Young, 2023-04-01 Writing Centers and Learning Commons presents program administrators, directors, staff, and tutors with theoretical rationales, experiential journeys, and go-to practical designs and strategies for the many questions involved when writing centers find themselves operating in shared environments. The chapters comprehensively examine the ways writing centers make the most of sharing common ground. Directors, coordinators, administrators, and stakeholders draw on past and present attention to writing center studies to help shape the future of the learning commons and narrate their substantial collective experience with collaborative efforts to stay centered while empowering colleagues and student writers at their institutions. The contributors explore what is gained and lost by affiliating writing centers with learning commons, how to create sound pedagogical foundations that include writing center philosophies, how writing center practices evolved or have been altered by learning center affiliations, and more. Writing Centers and Learning Commons is for all stakeholders of writing in and across campuses collaborating on (by choice or edict), or wishing to explore the possibilities of, a learning commons enterprise. textbooks stlcc: Before You See Your First Client Howard Rosenthal, 2021-08-04 Before You See Your First Client begins where courses, workshops, training seminars, and textbooks leave off,

providing a candid, behind-the-scenes look at the fields of therapy, counseling, and human services. The classic edition includes a new preface from the author reflecting on changes in counseling and in his own life during the last 20 years. In a reader-friendly and accessible style, Dr. Howard Rosenthal offers his readers 55 useful and practical ideas for the implementation, improvement, and expansion of one's mental health practice. Based on the author's own personal experiences, the book is written in an intimate and personal style to which inexperienced and beginning therapists can easily relate.

textbooks stlcc: Writing Program Architecture Bryna Siegel Finer, Jamie White-Farnham, 2017-11-01 Writing Program Architecture offers an unprecedented abundance of information concerning the significant material, logistical, and rhetorical features of writing programs. Presenting the realities of thirty diverse and award-winning programs, contributors to the volume describe reporting lines, funding sources, jurisdictions, curricula, and other critical programmatic matters and provide insight into their program histories, politics, and philosophies. Each chapter opens with a program snapshot that includes summary demographic and historical information and then addresses the profile of the WPA, program conception, population served, funding, assessment, technology, curriculum, and more. The architecture of the book itself makes comparison across programs and contexts easy, not only among the programs described in each chapter but also between the program in any given chapter and the reader's own program. An online web companion to the book includes access to the primary documents that have been of major importance to the development or sustainability of the program, described in a "Primary Document" section of each chapter. The metaphor of architecture allows us to imagine the constituent parts of a writing program as its foundation, beams, posts, scaffolding—the institutional structures that, alongside its people, anchor a program to the ground and keep it standing. The most extensive resource on program structure available to the field, Writing Program Architecture illuminates structural choices made by leaders of exemplary programs around the United States and provides an authoritative source of standard practice that a WPA might use to articulate programmatic choices to higher administration. textbooks stlcc: Enhancing Community Colleges Through Professional Development Gordon E. Watts, 2002 Community college professional development programs can be dynamic forces in helping community colleges address significant issues, create solutions for change, and create opportunities for renewal. This issue examines the challenges and rewards of creating an effective professional development program. Editor Gordon E. Watts, professor of higher education at the University of Arkansas at Little Rock, brings together the research and findings of scholars in the fields of higher education and economics as well as the perspectives of professionals in staff and organizational development at community colleges and community based organizations. Beginning with an overview of the ongoing need for professional development in the community college, its current status, its struggles to become institutionalized as a function in the community college, the issue offers a much needed perspective on professional development's expanding role and that challenges that it continues to face. Chapter authors illustrate how their institutions have addressed issues through professional development, created institutional change, developed new delivery systems for professional development, reached beyond development just for faculty, and found new uses for traditional development activities. Faculty development programs examined include orientation programs for new faculty members and programs that address the specific needs of part-time faculty. An analysis of an innovative online faculty development delivery system for both new and part-time faculty is presented along with positive outcomes of the program's implementation at two separate institutions. Another chapter explores the emergence of teaching and learning centers as catalysts for effective faculty development and institutional change.

Addressing campus development needs beyond faculty, other chapters examine staff development programs that include administration and classified staff as well as comprehensive programs that address professional development across the campus. The highly successful great teacher model for faculty development is revisited with descriptions of how the Great Teachers Seminars model can be taken a step further and successfully applied to classified, administration, and organizational development initiatives. As senior staff and faculty move toward retirement in greater numbers, potential shortages in leadership create the need for effective professional development at leadership levels. Evolution of the Presidents Academy, an innovative professional development program for newly appointed presidents, is examined in detail. Also explored is the need and importance of a renewed focus on leadership development overall and how leadership development strategies can be strengthened to ensure a continuous supply of well-trained community college leaders.

textbooks stlcc: **Schoolhouse Shams** Peter Downs, 2013 Written by a parent and school board member, who first embraced many of the ideas of the modern school reform movement, Schoolhouse Shams lays bare much of the mythology and misinformation that underpin many of the failed school reform policies of the last decade. Many of the top strategies of the highly publicized school reform movement already have been tried out in St. Louis with disastrous results. Along with demonstrating the failure of school reform prescriptions to improve education, the experience of St. Louis demonstrates that the ideological premise of the reform movement, that a focus on providing opportunities for private profit-taking will necessarily improve schools, is both wrong and conflicts with the ideals of democracy, accountability, and justice.

textbooks stlcc: **Real World Psychology** Catherine A. Sanderson, Karen R. Huffman, 2019-12-24 Real World Psychology balances comprehensive coverage of the key concepts in introductory psychology with a concise presentation style and engages students with current and interesting research that explores these concepts in real-life contexts. Real World Psychology features the incomparable author team of Karen Huffman (Palomar College) and Catherine Sanderson (Amherst College) who create an outstanding text that is appealing to students and instructors at a wide range of academic institutions. The new edition has been thoroughly updated and features a new focus on Scientific Thinking and Practical Applications underscoring the fact that connecting the principles of psychological science to everyday life is critical to student engagement, and ultimately key to their success – not only in the introductory psychology course, but in whatever their chosen field of study and in everyday life. Students will leave the course with an appreciation of how a basic, yet scientific understanding of human behavior can benefit them in their studies, in their personal lives, and in their professional endeavors.

textbooks stlcc: *College Algebra Essentials* John Coburn, Jeremy Coffelt, 2013-01-11 When Julie Miller began writing her successful developmental math series, one of her primary goals was to bridge the gap between preparatory courses and college algebra. For thousands of students, the Miller/O'Neill/Hyde (or M/O/H) series has provided a solid foundation in developmental mathematics. With the Miller College Algebra series, Julie has carried forward her clear, concise writing style; highly effective pedagogical features; and complete author-created technological package to students in this course area. The main objectives of the college algebra series are three-fold: Ë Provide students with a clear and logical presentation of the basic concepts that will prepare them for continued study in mathematics. Ë Help students develop logical thinking and problem-solving skills that will benefit them in all aspects of life. Ë Motivate students by

demonstrating the significance of mathematics in their lives through practical applications.

textbooks stlcc: **Discovering Psychology** Don Hockenbury, Sandra E. Hockenbury, 2016-03-02 Sandra Hockenbury and new coauthor Susan Nolans remarkable textbook is grounded in the belief that all kinds of students can develop a real understanding of psychology and lasting scientific literacy. The authors act on that belief by using relatable personal stories to communicate the concepts of psychological science (and the process of science itself), and by presenting important research in a clear not oversimplified way. Hockenbury and Nolan also take full advantage of online learning, creating activities in LaunchPad that have students thinking about psychology as scientists do. New co-author, Susan Nolan of Seton Hall University was recently designated a Master Teacher by the Society for Teaching Psychology. She regularly gives talks about incorporating scientific literacy into the introductory course and across the psychology curriculum.

textbooks stlcc: *Loose-leaf Version for Psychology* Sandra E. Hockenbury, Susan A.
