- Conclusion
- FAQs

Importance of Textbooks at UNCG

Textbooks are fundamental to the academic curriculum at UNCG, serving as the primary source of information and reference for students across various subjects. They encapsulate the theories, methodologies, and research essential for mastering course content. Moreover, textbooks often align closely with the syllabus, ensuring that students are adequately prepared for lectures, assignments, and examinations.

At UNCG, textbooks also foster a deeper understanding of the material. By providing comprehensive coverage of topics, they enable students to engage critically with the subject matter. This engagement is not only beneficial for passing exams but also for developing skills that are vital in the workforce, such as critical thinking and problem-solving.

Additionally, textbooks often include supplementary materials such as study guides, practice questions, and online resources, enhancing the learning experience. This multi-faceted approach to learning supports students in achieving academic excellence while also preparing them for real-world applications of their knowledge.

Where to Buy Textbooks

Students at UNCG have several options when it comes to purchasing textbooks. These options cater

to different preferences, budgets, and needs, making it easier for students to acquire the necessary materials for their courses.

University Bookstore

The UNCG Bookstore is the most straightforward option for students seeking textbooks. Located on campus, it offers a wide selection of new, used, and digital textbooks. The convenience of being on campus allows students to easily find the books they need without the hassle of online shopping or long wait times for shipping.

Online Retailers

Many students opt to purchase textbooks from online retailers such as Amazon, Chegg, and eBay. These platforms often provide competitive prices and a vast inventory of both new and used books. However, students should be mindful of shipping times and return policies when purchasing from these sources.

Local Bookstores

There are also several local bookstores near UNCG that specialize in academic texts. These stores may offer competitive pricing and the option to buy or rent textbooks. Additionally, shopping locally supports the community and can provide immediate access to needed materials.

Classified Ads and Social Media

Students can find textbooks at discounted prices by checking classified ads or social media groups dedicated to buying and selling textbooks. Platforms such as Facebook Marketplace or campus-specific pages can be beneficial for finding great deals from fellow students.

Managing Textbook Costs

The cost of textbooks can be a significant financial burden for students. However, there are various strategies to manage these expenses effectively, ensuring that students can focus on their studies rather than worrying about financial constraints.

Budgeting for Textbooks

Creating a budget specifically for textbooks is a practical first step. Students should research the cost of required texts for their courses at the beginning of each semester and allocate funds accordingly. By being proactive about budgeting, students can avoid financial stress and ensure they have the materials they need.

Used and Digital Textbooks

Purchasing used textbooks can significantly reduce costs. The UNCG Bookstore and online retailers often have a selection of used books available at lower prices. Additionally, digital textbooks typically cost less than their physical counterparts and can be more convenient, as they can be accessed on various devices.

Textbook Rentals

Renting textbooks is another effective way to manage costs. Many bookstores and online retailers offer rental options for both physical and digital textbooks. This approach allows students to pay a fraction of the purchase price while still having access to the necessary materials for their courses.

Digital and Rental Textbooks

As technology continues to evolve, digital textbooks and rental options have gained popularity among students at UNCG. These formats offer flexibility and often come at a reduced cost, making them an attractive alternative to traditional print textbooks.

Advantages of Digital Textbooks

Digital textbooks provide several advantages, including portability and accessibility. Students can carry multiple texts on a single device, eliminating the need to lug around heavy books. Additionally, digital texts often come with interactive features such as search functions, highlighting, and note-taking capabilities, enhancing the learning experience.

Rental Textbooks: A Cost-Effective Option

Renting textbooks allows students to use the required materials for a specific period, usually a semester, at a much lower cost than purchasing them outright. Many online platforms and bookstores provide rental services, making it easy for students to acquire the books they need without the financial burden of full ownership.

When renting textbooks, it is essential to be aware of the return policies and any potential fees for late returns or damages. Students should ensure they understand the terms of the rental agreement to avoid unexpected costs.

Conclusion

The landscape of educational resources, particularly textbooks, is ever-evolving, yet their importance at UNCG remains steadfast. Understanding the significance of textbooks, where to find them, and how to manage their costs is vital for academic success. With various purchasing options, budgeting strategies, and the rise of digital and rental textbooks, students can navigate their educational journeys more effectively while minimizing financial strain. As students harness these resources, they position themselves for a more enriching academic experience at UNCG.

Q: What are the best places to buy textbooks at UNCG?

A: The best places to buy textbooks at UNCG include the University Bookstore on campus, various online retailers such as Amazon and Chegg, local bookstores, and classified ads or social media groups for second-hand purchases.

Q: How can I save money on textbooks?

A: To save money on textbooks, consider purchasing used or digital versions, renting textbooks instead of buying them, and budgeting specifically for textbook expenses.

Q: Are digital textbooks available for all courses at UNCG?

A: While many courses at UNCG offer digital textbook options, availability can vary by course and instructor. It is advisable to check with the course syllabus or the bookstore for specific digital options.

Q: Can I return textbooks if I change my mind?

A: Return policies vary by seller. Most bookstores, including the UNCG Bookstore, have a defined return policy allowing returns within a certain period. Always check the policy before purchasing.

Q: What should I do if I can't afford my textbooks?

A: If you cannot afford your textbooks, consider reaching out to your instructors for alternatives, utilizing campus resources like financial aid, or exploring rental options to reduce costs.

Q: Are there any campus resources for textbook assistance?

A: Yes, UNCG offers various resources such as the Student Health Services and financial aid office that can provide assistance or guidance on managing textbook costs and finding affordable options.

Q: How do I find out what textbooks I need for my classes?

A: You can find out which textbooks you need by consulting your course syllabus, checking the UNCG Bookstore website, or contacting your professors directly for their recommendations.

Q: Is it possible to borrow textbooks from the library at UNCG?

A: Yes, the UNCG library has a collection of textbooks that can be borrowed by students. However, availability may vary, so it is recommended to check the library's catalog.

Q: What are the benefits of renting textbooks instead of buying them?

A: Renting textbooks typically costs significantly less than purchasing them, allowing students to save money. Additionally, renting books is convenient for students who may not need the texts beyond a single semester.

Q: Can I sell my textbooks back to the UNCG Bookstore?

A: Yes, the UNCG Bookstore usually offers a buyback program at the end of each semester, allowing students to sell their used textbooks back for a percentage of the original price, depending on demand and condition.

textbooks uncg: Topics from the 8th Annual UNCG Regional Mathematics and Statistics Conference Jan Rychtář, Sat Gupta, Ratnasingham Shivaji, Maya Chhetri, 2013-11-20 The Annual University of North Carolina Greensboro Regional Mathematics and Statistics Conference (UNCG RMSC) has provided a venue for student researchers to share their work since 2005. The 8th Conference took place on November 3, 2012. The UNCG-RMSC conference established a tradition of attracting active researchers and their faculty mentors from NC and surrounding states. The conference is specifically tailored for students to present the results of their research and to allow participants to interact with and learn from each other. This type of engagement is truly unique. The broad scope of UNCG-RMSC includes topics in applied mathematics, number theory, biology, statistics, biostatistics and computer sciences.

textbooks uncg: 2012-2013 UNCG Graduate School Bulletin ,

textbooks uncg: Textbook Of Structural Biology (Second Edition) Anders Liljas, Lars Liljas, Goran Lindblom, Poul Nissen, Morten Kjeldgaard, Miriam-rose Ash, 2016-09-27 This book provides a comprehensive coverage of the basic principles of structural biology, as well as an up-to-date summary of some main directions of research in the field. The relationship between structure and function is described in detail for soluble proteins, membrane proteins, membranes, and nucleic acids. There are several books covering protein structure and function, but none that give a complete picture, including nucleic acids, lipids, membranes and carbohydrates, all being of central importance in structural biology. The book covers state-of-the-art research in various areas. It is unique for its breadth of coverage by experts in the fields. The book is richly illustrated with more than 400 color figures to highlight the wide range of structures.

textbooks uncg: The Importance of Being Earnest Beth R. Bernhardt, Leah H. Hinds, Katina P. Strauch, 2015-10-15 Over one hundred presentations from the thirty-fourth Charleston Library Conference (held November 5-8, 2014) are included in this annual proceedings volume. Major themes of the meeting included patron-driven acquisitions versus librarian-driven acquisitions; marketing library resources to faculty and students to increase use; measuring and demonstrating

the library's role and impact in the retention of students and faculty; the desirability of textbook purchasing by the library; changes in workflows necessitated by the move to virtual collections; the importance of self-publishing and open access publishing as a collection strategy; the hybrid publisher and the hybrid author; the library's role in the collection of data, datasets, and data curation; and data-driven decision making. While the Charleston meeting remains a core one for acquisitions, serials, and collection development librarians in dialog with publishers and vendors, the breadth of coverage of this volume reflects the fact that the Charleston Conference is now one of the major venues for leaders in the information community to shape strategy and prepare for the future. Over 1,600 delegates attended the 2014 meeting, ranging from the staff of small public library systems to CEOs of major corporations. This fully indexed, copyedited volume provides a rich source for the latest evidence-based research and lessons from practice in a range of information science fields. The contributors are leaders in the library, publishing, and vendor communities.

textbooks uncg: The Entrepreneurial Librarian Mary Krautter, Mary Beth Lock, Mary G. Scanlon, 2014-01-10 The old image of an entrepreneur as a scrappy, independent risk-taker has been replaced by the reality of individuals incorporating innovative ideas in more traditional settings. This collection of essays illustrates how librarians are infusing entrepreneurial principles in a variety of arenas, including public, private, academic, and special libraries. It chronicles how entrepreneurial librarians are flourishing in the digital age, advocating social change, responding to patron demands, designing new services, and developing exciting fundraising programs. Applying new business models to traditional services, they eagerly embrace entrepreneurship in response to patrons' demands, funding declines, changing resource formats, and other challenges. By documenting the current state of entrepreneurship in libraries, this volume upends the public image of librarians as ill-suited to risky or creative ventures and places them instead on the cutting edge of innovations in the field.

textbooks uncg: UNCG. University of North Carolina at Greensboro, 1982*

textbooks uncg: Textbook Of Bioinformatics, A: Information-theoretic Perspectives Of Bioengineering And Biological Complexes Perambur S Neelakanta, 2020-08-24 This book on bioinformatics is designed as an introduction to the conventional details of genomics and proteomics as well as a practical comprehension text with an extended scope on the state-of-the-art bioinformatic details pertinent to next-generation sequencing, translational/clinical bioinformatics and vaccine-design related viral informatics. It includes four major sections: (i) An introduction to bioinformatics with a focus on the fundamentals of information-theory applied to biology/microbiology, with notes on bioinformatic resources, data bases, information networking and tools; (ii) a collection of annotations on the analytics of biomolecular sequences, with pertinent details presented on biomolecular informatics, pairwise and multiple sequences, viral sequence informatics, next-generation sequencing and translational/clinical bioinformatics; (iii) a novel section on cytogenetic and organelle bioinformatics explaining the entropy-theoretics of cellular structures and the underlying informatics of synteny correlations; and (iv) a comprehensive presentation on phylogeny and species informatics. The book is aimed at students, faculty and researchers in biology, health/medical sciences, veterinary/agricultural sciences, bioengineering, biotechnology and genetic engineering. It will be a useful companion for managerial personnel in the biotechnology and bioengineering industries as well as in health/medical science.

textbooks uncg: Kotch's Maternal and Child Health: Problems, Programs, and Policy in Public Health Russell S. Kirby, Sarah Verbiest, 2021-07-14 Offering the keen insight and expertise of a new author team and new contributors, the Fourth Edition of Kotch's Maternal and Child Health: Problems, Programs, and Policy in Public Health continues to offer a comprehensive, trusted introduction to the field of maternal and child health (MCH), while addressing the traditional MCH topics in a modern context that includes race/ethnicity, an expanded family focus, and a broadened approach that will appeal to health professionals both in and outside of public health practice. Organized according to fundamental principles of MCH, the book covers traditional MCH topics such as family planning and maternal and infant health as well as skills that are applicable across

Public Health disciplines such as planning, research, monitoring, and advocacy.

textbooks uncg: *Education for Cataloging and the Organization of Information* Janet Swan Hill, 2014-04-23 What does the future hold for cataloging education? Written by some of the best-known authors and most innovative thinkers in the field, including Michael Gorman, Sheila S. Intner, and Jerry D. Saye, this comprehensive collection examines education for students and working librarians in cataloging and bibliographic control, emphasizing history, context, the state of the art at present, and suggested future directions. A liberal dose of visual aids charts, tables, etc. makes accessing the information quick and easy. From the editor: The education of catalogers has swung pendulum-like from on-the-job training to graduate education and back again. The place of cataloging in the library school curriculum has swung from one of near pre-eminence to one of near extinction, and has begun to swing back again. The durability of education for cataloging has swung from 'In getting your degree you will learn everything you need to know in your career,' to 'You will have to engage in continuing education throughout your career, beginning virtually as soon as you have your degree.' Making informed decisions about how (and how much) cataloging education is to be provided is full of pitfalls, some of which the profession has fallen into already. What is needed now is a reconsideration of how education for cataloging and bibliographic control is provided. *Education for Cataloging and the Organization of Information: Pitfalls and the Pendulum* addresses four main areas: the ways professionals perceive the place, nature, and necessity of cataloging education; the professional, demographic, and academic context within which cataloging education is provided; education regarding special types of materials and special aspects of cataloging; and alternatives to traditional modes of education for cataloging, including: distance education online mentoring Web-based instruction continuing education training for (and via) cooperative projects the role of the community of catalogers in the continuing education of those who provide intellectual access to the world of information and much more!

textbooks uncg: *A Textbook of Children's and Young People's Nursing E-Book* Edward Alan Gasper, James Richardson, 2010-05-19 This popular textbook is aimed at children's nurses in a wide range of practice settings including primary, ambulatory, and tertiary care. Covering the full age and specialty spectrum this text brings together chapters from among the best-known children's nurses in the UK. It describes family-centred child healthcare drawing upon practice throughout the UK and further afield. This innovative text provides up to date information on a wide range of topics. Each chapter offers readers additional material on Evolve. Full Microsoft PowerPoint presentations that facilitate interactive learning augment the written chapters and provide information not normally possible in a standard textbook e.g. colour photographs, video clips. Although intended for nurses the book adopts an interprofessional, problem-solving and reflective approach aimed at students, practitioners and child health educators. Material is offered from levels 1-3 and some of the ancillary material extends into the postgraduate arena. - Each chapter offers readers additional material on an Evolve website. Full Microsoft PowerPoint presentations augment the written chapters and provide extra information that includes case studies, moving image, photographs and text. - Aims, objectives, learning outcomes, a summary box in each chapter and key points assist learning and understanding - Professional conversation boxes enliven the text on the page and make it more interesting to dip into - Suggestions for seminar discussion topics to help teachers - Case studies help to relate theory to practice - Prompts to promote reflective practice - Activity boxes/suggested visits - Evidence based practice boxes which highlight key research studies, annotated bibliographies including details of web-sites and full contemporary references to the evidence base - Resource lists including recommended web-site addresses New chapter on blood disorders of childhood. New material on caring for young people and transitions in care. More on childhood eczema, childhood and adolescent mental health, solid tumours of childhood.

textbooks uncg: *Dark Pasts* Jennifer M. Dixon, 2018-11-15 In *Dark Pasts*, Jennifer M. Dixon asks why states deny past atrocities, and when and why they change the stories they tell about them.

In recent decades, states have been called on to acknowledge and apologize for historic wrongs. Some have apologized, while others have silenced, denied, and relativized past crimes. *Dark Pasts* unravels the complex and fraught processes through which state narratives of past atrocities are constructed, contested, and defended. Focusing on Turkey's narrative of the Armenian Genocide and Japan's narrative of the Nanjing Massacre, Dixon shows that international pressures increase the likelihood of change in states' narratives of their own dark pasts, even as domestic considerations determine their content. Combining historical richness and analytical rigor, *Dark Pasts* is a revelatory study of the persistent presence of the past and the politics that shape narratives of state wrongdoing.

textbooks uncg: Embedded Librarianship Alice L. Daugherty, Michael F. Russo, 2013-09-23 In the ongoing evolution of the academic library, embedded librarianship has become an important topic of debate across levels and departments. This book delves into the concept, examining everything from theory to best practices. Is the embedded librarian an equal partner in the course, or is the librarian perceived as a value-added extra? What is the place of technology in this effort? Is there a line librarians should not cross? Taking into account both theory and practice to discuss multiple facets of the subject, *Embedded Librarianship: What Every Academic Librarian Should Know* thoroughly examines these questions and more from the perspectives of experienced embedded librarian contributors who have worked in higher education settings. The chapters illuminate the benefits and challenges of embedding, explain the planning required to set up an embedded course, identify the different forms of embedding, and consider information literacy instruction in various contexts. Readers who will benefit from this work include not only academic librarians but any professor who wants their students to be able to do better research in their fields.

textbooks uncg: Chemistry John Kenkel, Paul B. Kelter, David S. Hage, 2000-09-21 What a great idea—an introductory chemistry text that connects students to the workplace of practicing chemists and chemical technicians! Tying chemistry fundamentals to the reality of industrial life, *Chemistry: An Industry-Based Introduction with CD-ROM* covers all the basic principles of chemistry including formulas and names, chemical bond

textbooks uncg: Library Technical Services Stacey Marien, 2020-08-15 Libraries are experiencing major changes concerning the role of technical services. Technical services librarians also are being challenged about their relevance and role, sometimes revealed by a lack of understanding of the contribution technical services librarians make to building and curating library and archival collections. The threats are real: relocation from central facilities, the dramatic shift to electronic resources, budgetary constraints, and outsourced processing. As a result, technical services departments are reinventing themselves to respond to these and similar challenges while embracing innovative methods and opportunities to advance librarianship in the twenty-first century. *Library Technical Services* provides case studies that highlight difficult realities, yet embrace exciting opportunities, such as space reclamation, evolving vendor partnerships, metadata, retraining and managing personnel, special collections, and distance education. Written for catalog and metadata librarians and managers of technical services units, this book will inspire and provide practical advice and examples for solving issues many libraries are facing today.

textbooks uncg: Educating About Social Issues in the 20th and 21st Centuries Vol 1 Samuel Totten, Jon Pedersen, 2012-04-01 Educating About Social Issues in the 20th and 21st

Centuries: A Critical Annotated Bibliography, is comprised of critical essays accompanied by annotated bibliographies on a host of programs, models, strategies and concerns vis-à-vis teaching and learning about social issues facing society. The primary goal of the book is to provide undergraduate and graduate students in the field of education, professors of education, and teachers with a valuable resource as they engage in research and practice in relation to teaching about social issues. In the introductory essays, authors present an overview of their respective topics (e.g., The Hunt/Metcalf Model, Science/Technology/Science, Genocide Education). In doing so, they address, among other concerns, the following: key theories, goals, objectives, and the research base. Many also provide a set of recommendations for adapting and/or strengthening a particular model, program or the study of a specific social issue. In the annotated bibliographies accompanying the essays, authors include those works that are considered classics and foundational. They also include research- and practice-oriented articles. Due to space constraints, the annotated bibliographies generally offer a mere sampling of what is available on each approach, program, model, or concern. The book is composed of twenty two chapters and addresses an eclectic array of topics, including but not limited to the following: the history of teaching and learning about social issues; George S. Counts and social issues; propaganda analysis; Harold Rugg's textbook program; Hunt and Metcalf's Reflective Thinking and Social Understanding Model; Donald Oliver, James Shaver and Fred Newmann's Public Issues Model; Massialas and Cox' Inquiry Model; the Engle/Ochoa Decisionmaking Model; human rights education; Holocaust education; education for sustainability; economic education; global education; multicultural education; James Beane's middle level education integrated curriculum model; Science Technology Society (STS); addressing social issues in the English classroom; genocide education; interdisciplinary approaches to incorporating social issues into the curriculum; critical pedagogy; academic freedom; and teacher education.
