used textbooks follett: Books in the Digital Age John B. Thompson, 2013-10-21 The book publishing industry is going through a period of profound and turbulent change brought about in part by the digital revolution. What is the role of the book in an age preoccupied with computers and the internet? How has the book publishing industry been transformed by the economic and technological upheavals of recent years, and how is it likely to change in the future? This is the first major study of the book publishing industry in Britain and the United States for more than two decades. Thompson focuses on academic and higher education publishing and analyses the evolution of these sectors from 1980 to the present. He shows that each sector is characterized by its own distinctive 'logic' or dynamic of change, and that by reconstructing this logic we can understand the problems, challenges and opportunities faced by publishing firms today. He also shows that the digital revolution has had, and continues to have, a profound impact on the book publishing business, although the real impact of this revolution has little to do with the ebook scenarios imagined by many commentators. *Books in the Digital Age* will become a standard work on the publishing industry at the beginning of the 21st century. It will be of great interest to students taking courses in the sociology of culture, media and cultural studies, and publishing. It will also be of great value to professionals in the publishing industry, educators and policy makers, and to anyone interested in books and their future.

used textbooks follett: The Apostolic School That Wasn't... Fr. John A. Doyle, 2020-12-08 The *Apostolic School That Wasn't...* narrates a gripping account of how a rugged and picturesque 240 acre property in the foothills of the Sierra Nevada slowly transformed into an accredited minor seminary, junior high and high school for boys interested in the Catholic priesthood, then flourished, floundered, and finally shuttered. Situated between the action of God's divine providence and human realities, the narration seeks to give witness to the faith and effort of the many persons involved in

the project, while exploring the possible reasons that led to the school's ultimate demise. The narration takes place within the backdrop of the Vatican ordered purification and renewal of the Legionaries of Christ and hopes to offer insights into creating a more stable and flourishing environment for present and future apostolic institutions.
