valore textbooks: *Ruta's Closet* Keith Morgan, Ruth Kron Sigal, 2024-11-15 *Ruta's Closet* tells the compelling Holocaust story of a Jewish family, imprisoned in the tiny Shavl ghetto in Lithuania. The Kron family survived the horror of the Nazi regime, thanks to the resourcefulness of Meyer and Gita Kron and the bravery of their rescuers. While *Ruta's Closet* is based on fact, it reads like fiction. The drama of the events described and the richness of the characters make it a compelling work of narrative nonfiction—as intriguing as it is inspirational. The Krons are the focus but horrific events in the ghetto are also revealed, including mass murders, a Nazi ban on births, the removal of all children to the Auschwitz gas chambers. All dreadful events; but accounts of brave rescues and daring acts offer hope for humanity. *Ruta's Closet* is also the focus of a Holocaust awareness podcast series, available from all popular platforms. High School teachers can also download a teacher's guide and classroom activities recommendations, authored by the Vancouver Holocaust Education Centre. Adult readers can download Book Club Talking Points, also authored by VHEC. Both guides, along with additional informative audio and text material, are hosted at the book's interactive website, rutascloset.com.

valore textbooks: *Modernism and the Avant-garde Body in Spain and Italy* Nicolas Fernandez-Medina, Maria Truglio, 2016-03-22 This interdisciplinary volume interrogates bodily thinking in avant-garde texts from Spain and Italy during the early twentieth century and their relevance to larger modernist preoccupations with corporeality. It examines the innovative ways Spanish and Italian avant-gardists explored the body as a locus for various aesthetic and sociopolitical considerations and practices. In reimagining the nexus points where the embodied self and world intersect, the texts surveyed in this book not only shed light on issues such as authority, desire, fetishism, gender, patriarchy, politics, religion, sexuality, subjectivity, violence, and war during a period of unprecedented change, but also explore the complexities of aesthetic and epistemic rupture (and continuity) within Spanish and Italian modernisms. Building on contemporary scholarship in Modernist Studies and avant-garde criticism, this volume brings to light numerous cross-cultural touch points between Spain and Italy, and challenges the center/periphery frameworks of European cultural modernism. In linking disciplines, genres, —isms, and geographical spheres, the book provides new lenses through which to explore the narratives of modernist corporeality. Each contribution centers around the question of the body as it was actively being debated through the medium of poetic, literary, and artistic exchange, exploring the body in its materiality and form, in its sociopolitical representation, relation to Self, cultural formation, spatiality, desires, objectification, commercialization, and aesthetic functions. This comparative approach to Spanish and Italian avant-gardism offers readers an expanded view of the intersections of body and text, broadening the conversation in the larger fields of cultural modernism, European Avant-garde Studies, and Comparative Literature.

The result, *Skiing Zen*, is much more than a ski adventure. It is a tapestry of thought about sports and awareness, about differences between Eastern and Western thinking, and about individualism amidst group pressure. Woven into the travel anecdotes, cultural insights, and skiing action are intriguing concepts such as the spectrum of

attention and distraction, the evolving spiral of learning, the power of guided imagery, and the correlation between Zen and love. Stunning in scope and yet penetrating in its earnest insight, Phipps is indeed Searching for the Spirituality of Sport.
