vista higher learning french textbooks: *Teaching Culture in Introductory Foreign Language Textbooks* Carol A. Chapelle, 2016-07-30 This book demonstrates how foreign language textbook analysis can inform future materials development to improve foreign language teaching. Through chronological analysis of French textbooks in the United States, this book explores the representations of Canada and Quebec in French beginner textbooks produced from 1960 to 2010. Chapelle couples a large collection of 65 textbooks with a social-semiotic qualitative analysis of the genres, language and images that communicate Quebec's cultural narrative to learners. Findings about the amount and type of content are presented by decade to track the trends in foreign language teaching and changes in Quebec's representation. Particular attention is given to how language politics is presented to students through text and images. This book will be of interest to scholars of Canadian Studies, Quebec Studies and Second Language Acquisition, as well as foreign language materials developers.

Siham Bouamer, Loïc Bourdeau, 2022-04-04 This edited volume presents new and original approaches to teaching the French foreign-language curriculum, reconceptualizing the French classroom through a more inclusive lens. The volume engages with a broad range of scholars to facilitate an understanding of the process of French (de)colonization as well as its reverberations into the postcolonial era, and a deeper engagement with the global interconnectedness of these processes. Chapters in Part I revisit the concept of the francophonie, decenter the field from “metropolitan” or “hexagonal” and white France and underline how current teaching materials reproduce epistemic and colonial violence. Part II adopts an intersectional approach to address topics of gender inclusivity, trans-affirming teaching, queer materials, and ableism. Finally, Part III presents new ways to transform the discipline by affirming our commitment to social justice and making sure that our classrooms are representative of our students’ enriching diversity.
