spanish workbooks pdf free download: The 2011 Guide to Free Or Nearly-Free E-Books , 2011 One of the problems which face all librarians adding e-books to their collections is that of bibliographic control: there is no legal deposit for e-books and consequently there is no single place from which new titles can be found. If this is true of commercially published e-books, it is most certainly also true of free e-books... and there are many thousands of free e-books available over the Internet, many of which are of a quality such that librarians might wish to have them in their collections. The 2011 Guide to Free or Nearly-Free e-Books is offered as a tool for librarians and others involved in book selection (e.g. teachers in schools) in all sectors - school, further and higher education, public and special libraries - to facilitate easy access to free e-books and e-book collections which can enhance their digital library.

An electronic book (also e-book, ebook, electronic book, digital book) is a book-length publication in digital form, consisting of text, images, or both, and produced on, published through, and readable on computers or other electronic devices. An e-book can be purchased/borrowed, downloaded, and used immediately, whereas when one buys or borrows a book, one must go to a bookshop, a home library, or public library during limited hours, or wait for a delivery. Electronic publishing or ePublishing includes the digital publication of e-books and electronic articles, and the development of digital libraries and catalogues. EPUB (short for electronic publication; alternatively capitalized as ePub, ePUB, EPub, or epub, with EPUB preferred by the vendor) is a free and open e-book standard by the International Digital Publishing Forum (IDPF). Self-publishing is the publication of any book or other media by the author of the work, without the involvement of an established third-party publisher. spanish workbooks pdf free download: Pedagogics of Liberation Enrique D. Dussel, 2019 Enrique Dussel is considered one of the founding philosophers of liberation in the Latin American tradition, an influential arm of what is now called decoloniality. While he is astoundingly prolific, relatively few of his works can be found in English translation - and none of these focus specifically on education. Founding members of the Latin American Philosophy of Education Society David I. Backer and Cecilia Diego bring to us Dussel's THE PEDAGOGICS OF LIBERATION: A Latin American Philosophy of Education, the first English translation of Dussel's thinking on education, and also the first translation of any part of his landmark multi-volume work Towards an Ethics of Latin American Liberation. Dussel's oeuvre is an impressive intellectual mosaic that uses Europeans to disrupt European thinking. This mosaic has at its center French philosopher Emmanuel Levinas, but also includes Ancient Greek philosophy, Thomist theology, modern Enlightenment philosophy, analytic philosophy of language, Marxism, psychoanalysis (Freud, Klein, evolutionary psychology, neuroscience), phenomenology (Sartre, Heidegger, Husserl, Hegel), critical theory (Frankfurt School, Habermas), and linguistics. Dussel joins these traditions to Latin American history, literature, and philosophy, specifically the work of Octavio Paz, Ivan Illich, and the philosophers of

liberation whom Dussel studied with in Argentina before his exile to Mexico in the late 1970s. Drawing heavily from the ethical philosophy of Emmanuel Levinas, Dussel examines the dominating and liberating features of intimate, concrete, and observable interactions between different kinds of people who might sit down and have face-to-face encounters, specifically where there may be an inequality of knowledge and a responsibility to guide, teach, learn, care, or study: teacher-student, politician-citizen, doctor-patient, philosopher-nonphilosopher, and so on. Those occupying the superior position of these face-to-face encounters (teachers, politicians, doctors, philosophers) have a clear choice for Dussel when it comes to their pedagogics. They are either open to hearing the voice of the Other, disrupting their sense of what is and should be by a newness beyond what they know; or, following the dominant pedagogics, they can try to communicate and instruct their sense of what is and should be to the (supposed) tabula rasas in their charge. Dussel calls that sense of what is and should be *lo Mismo*. This groundbreaking translation makes possible a face-to-face encounter between an Anglo Philosophy of Education and Latin American Pedagogics. Pedagogics should be considered as a type of philosophical inquiry alongside ethics, economics, and politics. Dussel's pedagogics is a decolonizing pedagogics, one rooted in the philosophy of liberation he has spent his epic career articulating. With an Introduction by renowned philosopher Linda Martin Alcoff, this book adds an essential voice to our conversations about teaching, learning, and studying, as well as critical theory in general. ENRIQUE DUSSEL was born in 1934 in the town of La Paz, in the region of Mendoza, Argentina. He first came to Mexico in 1975 as a political exile and is currently a Mexican citizen, Professor in the Department of Philosophy at the Iztapalapa campus of the Universidad Autónoma Metropolitana (Autonomous Metropolitan University, UAM), and also teaches courses at the Universidad Nacional Autónoma de México (National Autonomous University of Mexico, UNAM). He has an undergraduate degree in Philosophy (from the Universidad Nacional de Cuyo/National University of Cuyo in Mendoza, Argentina), a Doctorate from the Complutense University of Madrid, a Doctorate in History from the Sorbonne in Paris, and an undergraduate degree in Theology obtained through studies in Paris and Münster.
